

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Richard Kahan
DOCKET NO.: 23-21772.001-R-1
PARCEL NO.: 05-30-400-016-0000

The parties of record before the Property Tax Appeal Board are Richard Kahan, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$12,526
IMPR.: \$48,474
TOTAL: \$61,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of frame and masonry exterior construction with 3,182 square feet of living area. The dwelling was built in 1973 and is approximately 50 years old. Features include a full basement, 3½ bathrooms, central air conditioning, one fireplace, and a 2-car garage. The property has a 7,829 square foot site and is located in Wilmette, New Trier Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located within the subject's assessment neighborhood and within 0.6 of a mile from the subject property. The comparables are improved with 2-story, class 2-78 dwellings of frame and masonry exterior construction ranging in size from 2,620 to 2,986 square feet of living area.

The homes range in age from 48 to 53 years old. Each comparable has a partial basement, 2½ full bathrooms, central air conditioning, one fireplace, and a 2-car garage. The comparables have improvement assessments ranging from \$38,538 to \$44,432 or from \$14.71 to \$14.88 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$47,030.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$62,643. The subject property has an improvement assessment of \$50,117 or \$15.75 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the subject's assessment neighborhood and on the same block or within the same subarea as the subject property. The comparables are improved with 2-story, class 2-78 dwellings of frame and masonry exterior construction ranging in size from 2,523 to 2,738 square feet of living area. The homes range in age from 51 to 56 years old. Each comparable has a full or partial basement, 2½ or 3 bathrooms, central air conditioning, one fireplace, and a 2-car garage. The comparables have improvement assessments ranging from \$40,822 to \$48,531 or from \$16.18 to \$17.92 per square foot of living area. Based on this evidence, the board of review requested the assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted eight suggested equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparable #1 and the board of review comparables which are less similar to the subject in dwelling size than the other comparables in this subject.

The Board finds the best evidence of assessment equity to be the appellant's comparables #2, #3, and #4 which are overall most similar to the subject in location, design/class, age, dwelling size, and most features. These comparables have improvement assessments ranging from \$42,080 to \$44,432 or from \$14.75 to \$14.88 per square foot of living area. The subject's improvement assessment of \$50,117 or \$15.75 per square foot of living area falls above the range established by the best comparables in this record. After considering appropriate adjustments to the best comparables for differences from the subject, the Board finds the subject's improvement assessment is excessive and that the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
