

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Evanston Bond & Mortgage
DOCKET NO.: 23-22015.001-R-1
PARCEL NO.: 10-13-118-066-0000

The parties of record before the Property Tax Appeal Board are Evanston Bond & Mortgage, the appellant, by attorney Brian S. Maher, of Weis, DuBrock, Doody & Maher in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$7,200
IMPR.: \$21,800
TOTAL: \$29,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of stucco exterior construction with 1,495 square feet of living area. The dwelling is approximately 99 years old. Features of the home include a basement with finished area¹ and a 2-car garage. The property has a 6,000 square foot site and is located in Evanston, Evanston Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity regarding the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables located within the same assessment neighborhood code as the subject. The comparables are improved with 1-story or 1.5-story, class 2-03 homes of frame or masonry

¹ The Board finds the best evidence of basement finish is found in the board of review's evidence where the appellant reported "N/A" in the grid analysis and left Section III blank regarding finished basement area.

exterior construction ranging in size from 1,025 to 1,382 square feet of living area. The dwellings range in age from 65 to 116 years old. Three homes have a basement and one home has a slab foundation. The appellant did not disclose whether or not the subject or any comparables have finished basement area. One comparable has a 1-car garage. The comparables have improvement assessments ranging from \$12,639 to \$18,517 or from \$12.24 to \$13.40 per square foot of living area. Based on this evidence the appellant requested a reduction in the subject's improvement assessment to \$19,375.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$29,000. The subject property has an improvement assessment of \$21,800 or \$14.58 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within the same assessment neighborhood code as the subject. The comparables are improved with 1-story, class 2-03 homes of frame or masonry exterior construction ranging in size from 1,039 to 1,050 square feet of living area. The dwellings range in age from 64 to 105 years old. Three homes have a basement, one of which has finished area, and one home has a crawl space foundation. One comparable has central air conditioning and three comparables each have a 2-car garage. The comparables have improvement assessments ranging from \$15,600 to \$20,600 or from \$14.86 to \$19.83 per square foot of living area. Based on this evidence the board of review requested the subject's assessment be sustained.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains a total of eight equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables, as the appellant did not disclose whether or not any of these comparables has finished basement area like the subject. Moreover, the appellant's comparables #2, #3, and #4 differ substantially from the subject in design and/or foundation type. The Board also gives less weight to the board of review's comparables #3 and #4, due to substantial differences from the subject in age.

The Board finds the best evidence of assessment equity to be the board of review's comparables #1 and #2, which are more similar to the subject in design, age, location, and some features, although these comparables are substantially smaller homes than the subject and one comparable has a crawl space foundation compared to the subject's basement with finished area, suggesting upward adjustments to these comparables would be needed to make them more equivalent to the subject. These comparables have improvement assessments of \$15,600 and \$20,600 or \$14.86

and \$19.83 per square foot of living area, respectively. The subject's improvement assessment of \$21,800 or \$14.58 per square foot of living area falls above the two best comparables in terms of total improvement assessment and below the best comparables on a per square foot basis, which is logical given the subject is a larger home than these comparables. Based on this record and after considering appropriate adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
