

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Michael Ryan
DOCKET NO.: 23-22073.001-R-1
PARCEL NO.: 27-02-213-004-0000

The parties of record before the Property Tax Appeal Board are Michael Ryan, the appellant(s), by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,625
IMPR.: \$63,122
TOTAL: \$68,747

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 15,000 square foot parcel of land improved with a one-and-a-half-story dwelling of masonry construction with 3,700 square feet of living area. The dwelling on the property is twenty-two years old. Features include a full unfinished basement, air conditioning, three full bathrooms and a half bath, one fireplace and a three-car garage. The subject property is located in Orland Park, Orland Township, Cook County and is classified as a 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant asserts assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on four suggested equity comparables with varying degrees of similarity to the subject property. The four properties offered by the appellant as comparables are each constructed of either masonry or frame/masonry, have air conditioning, either one or two fireplaces, a full basement, and range in size from 3,414 to 3,623 square feet of living area.

Three of the comparables have three-car garages, and one has a three-and-a-half-car garage. The comparables range in age from twenty-two to thirty-four years old. The appellant reports that the comparables range in proximity to the subject property from 98 feet to 6.5 miles. The comparables have improvement assessments ranging from \$14.66 to \$16.99 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's assessment to \$65,972.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject as \$70,000. The subject property has an improvement assessment of \$64,375 or \$17.40 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on three suggested equity comparables. The suggested comparable properties range in size from 2,827 to 3,797 square feet of living area. Each of the comparable properties are improved with either a one-story or a one-and-one-half story dwelling of masonry construction. They each have air conditioning, three-car garages, and either one or two fireplaces. Two of the comparables have full unfinished basements and one has a finished partial basement. The comparable properties range in age from one to twenty-one years old and have improvement assessments ranging from \$17.21 to \$24.66 per square foot of living area. The board of review reports that one of the comparables is on the same block as the subject property and is silent on the proximity of the other comparables to the subject property. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The taxpayer asserts assessment inequity as the basis of the appeal. The Illinois Constitution requires that real estate taxes "be levied uniformly by valuation ascertained as the General Assembly shall provide by law." Ill. Const., art. IX, § 4 (1970); Walsh v. Property Tax Appeal Board, 181 Ill. 2d 228, 234 (1998). This uniformity provision of the Illinois Constitution does not require absolute equality in taxation, however, and it is sufficient if the taxing authority achieves a reasonable degree of uniformity. Peacock v. Property Tax Appeal Board, 339 Ill. App. 3d 1060, 1070 (4th Dist. 2003).

When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill. Admin. Code §1910.63(e); Walsh, 181 Ill. 2d at 234 (1998). Clear and convincing evidence means more than a preponderance of the evidence, but it does not need to approach the degree of proof needed for a conviction of a crime. Bazyldo v. Volant, 164 Ill. 2d 207, 213 (1995). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill. Admin. Code §1910.65(b). The Board finds the appellant did meet this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of assessment equity to be the appellant's comparables #3 and #4 and the board of review's comparable #1. These comparable properties had similar sized living areas, age, features, and a much closer proximity to the subject property than all other comparables. In comparison, appellant's comparables #1 and #2 were over six miles away from the subject. The Board finds that these comparables are afforded less weight based on proximity

to the subject property. The board of review's comparables #2 and #3 were afforded less weight due to differences in age. These comparables were reported to be one year old, as opposed to the twenty-two year old subject property.

The best evidence comparables ranged in improvement assessment of \$16.99 to \$17.21 per square foot of living area. The subject's improvement assessment of \$17.40 per square foot of living area falls above the range established by the best comparables in this record. After considering adjustments to these comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is not supported. Based on this record the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
