

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Lorna Balan
DOCKET NO.: 23-22292.001-R-1
PARCEL NO.: 05-19-413-011-0000

The parties of record before the Property Tax Appeal Board are Lorna Balan, the appellant, by attorney Brian S. Maher, of Weis, DuBrock, Doody & Maher in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$26,240
IMPR.: \$62,083
TOTAL: \$88,323

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of masonry exterior construction with 4,060 square feet of living area. The dwelling is approximately 73 years old. Features of the home include a full basement, 4 full bathrooms, central air conditioning, 2 fireplaces, and a 2-car garage. The property has a 16,400 square foot site and is located in Northfield, New Trier Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four comparables that are located within the same assessment neighborhood as the subject. The comparables consist of class 2-06, 2-story dwellings of frame, masonry, stucco, or frame and masonry exterior construction ranging in size from 3,441 to 4,108 square feet of living area. The

comparables are from 70 to 100 years old. One comparable has a slab foundation, and three comparables have a partial or full basement with "N/A" reported in the grid analysis for the finished area. Each comparable has from 2 to 4 full bathrooms, central air conditioning, 1 or 2 fireplaces, and from a 1-car to a 2.5-car garage. Two comparables each have 1 half bathroom. The comparables have improvement assessments ranging from \$42,000 to \$52,623 or from \$11.88 to \$12.81 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$50,385.

The board of review submitted its "Board of Review Notes on Appeal disclosing the total assessment for the subject property of \$88,323. The subject property has an improvement assessment of \$62,083 or \$15.29 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four comparables that are located within the same assessment neighborhood as the subject. The comparables consist of class 2-06, 2-story dwellings of frame, masonry or frame and masonry exterior construction ranging in size from 3,592 to 4,608 square feet of living area. The comparables are 16 to 66 years old. Each comparable has a partial or full basement with one having finished area. Each comparable has from 2 to 5 full bathrooms and 1 or 2 fireplaces. Two comparables each have 1 half bathroom, three comparables each have central air conditioning, and three comparables each have a 1-car, a 2-car to a 3-car garage. The comparables have improvement assessments ranging from \$60,633 to \$79,200 or from \$15.80 to \$18.00 per square foot of living area. Based on this evidence, the board of review requested the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #1, #2 and #3 as well as the board of review comparable #3 which significantly differ from the subject in age, foundation type and/or lack a central air conditioning amenity, which is a feature of the subject.

The Board finds the best evidence of assessment equity to be the parties' remaining comparables. these comparables are relatively similar to the subject in location, age and dwelling size but have varying degrees of similarity to the subject in other features. These four comparables have improvement assessments ranging from \$52,623 to \$79,200 or from \$12.81 to \$17.19 per square foot of living area. The subject's improvement assessment of \$62,083 or \$15.29 per square foot of living area falls within the range established by the best comparables in the record. After considering adjustments to the best comparables for differences from the subject, the Board finds

the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that the properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
