

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Marquis Parker
DOCKET NO.: 23-22465.001-R-1
PARCEL NO.: 11-07-122-052-0000

The parties of record before the Property Tax Appeal Board are Marquis Parker, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$29,012
IMPR.: \$81,642
TOTAL: \$110,654

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame exterior construction with 3,439 square feet of living area and which is approximately 127 years old. Features include a full basement, 3 bathrooms, one fireplace, and a 2.5-car garage. The property has a 10,550 square foot site and is located in Evanston, Evanston Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located in the same neighborhood code as the subject and from .2 to .7 of a mile from the subject. The comparables consist of class 2-06 two-story dwellings of frame or frame and masonry exterior construction which range in age from 102 to 120 years old. The dwellings

range in size from 3,438 to 3,794 square feet of living area. Features include a full basement, 3 to 4 bathrooms, and where three comparables each have a fireplace and a two-car garage. The comparables have improvement assessments ranging from \$73,872 to \$79,295 or from \$20.85 to \$21.87 per square foot of living area.

Based on this evidence, the appellant requested a reduced improvement assessment of \$73,251 or \$21.30 per square foot of living area representing the average of the comparables presented.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$110,654. The subject property has an improvement assessment of \$81,642 or \$23.74 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code as the subject and either the same block or ¼ of a mile from the subject. The comparables consist of class 2-06 two-story dwellings of frame or stucco exterior construction which range in age from 109 to 133 years old. The dwellings range in size from 3,135 to 3,652 square feet of living area. Each comparable has a full or partial basement, 2½ to 4 bathrooms, a fireplace, and a 2-car or a 2.5-car garage. Three comparables have central air conditioning. Comparable #3 is reported to have "other improvements" which are not further described in the record. The comparables have improvement assessments ranging from \$79,535 to \$91,680 or from \$24.04 to \$25.88 per square foot of living area.

Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of eight suggested equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to board of review comparables #2, #3 and #4, due to central air conditioning amenity which is not a feature of the subject.

The Board finds the best comparables in this record consist of appellant's comparables along with the board of review comparable #1, which present various similarities to the subject in location, dwelling size, exterior construction, and some features. Adjustments for variations in both bathroom count and garage amenity/capacity are necessary for each of the appellant's properties. Each property differs in age when compared to the subject and suggests adjustments are warranted to make the comparables more equivalent to the subject. The best comparables

have improvement assessments ranging from \$73,872 to \$86,472 or from \$20.85 to \$24.04 per square foot of living area. The subject's improvement assessment of \$81,642 or \$23.74 per square foot of living area is within the range of the best comparables both in terms of overall improvement assessment and on a per-square-foot of living area basis.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence.

Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
