

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Robert Segal
DOCKET NO.: 23-22625.001-R-1
PARCEL NO.: 05-17-307-034-0000

The parties of record before the Property Tax Appeal Board are Robert Segal, the appellant, by attorney Robert Rosenfeld of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$71,874
IMPR.: \$168,126
TOTAL: \$240,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame exterior construction with 5,358 square feet of living area. The dwelling is approximately 20 years old. Features of the property include a partial basement with finished area,¹ central air conditioning, a fireplace and a 2-car garage. The property has a 21,780 square foot site and is located in Winnetka, New Trier Township, Cook County. The subject is classified as a class 2-09 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables that have the same assessment neighborhood code as the subject and are located

¹ The board of review disclosed the subject's basement is finished with a formal recreation room, which was not reported by nor was it refuted by the appellant.

from .3 of a mile to 2.3 miles from the subject property.² The comparables are class 2-09 properties improved with two-story dwellings of frame, masonry or stucco exterior construction ranging in size from 5,213 to 6,540 square feet of living area. The dwellings range in age from 2 to 46 years old. Each comparable has a full basement, central air conditioning and from one to six fireplaces. Three comparables each have a 2-car or a 2.5-car garage. The comparables have improvement assessments that range from \$147,059 to \$189,501 or from \$27.62 to \$28.98 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$151,417 or \$28.26 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$240,000. The subject property has an improvement assessment of \$168,126 or \$31.38 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code as the subject and are located approximately ¼ of a mile from the subject property or within a subarea of the subject.³ The comparables are class 2-09 properties improved with two-story dwellings of frame, masonry or frame and masonry exterior construction ranging in size from 5,453 to 5,733 square feet of living area. The dwellings range in age from 15 to 32 years old. The comparables each have a full or partial basement, three with finished area. Each comparable has two or three fireplaces and either a 1.5-car, a 2-car, a 3-car or a 3.5-car garage. Three comparables have central air conditioning. The comparables have improvement assessments that range from \$187,469 to \$222,700 or from \$33.32 to \$38.85 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables, as well as board of review comparable #3 due to differences from the subject in dwelling size, age and/or location.

² The appellant's comparables #2 and #3 have property index numbers (PIN) beginning with 05-21 and 05-28, indicating these two properties are located in sections 21 and 28 of the township, respectively, whereas the subject's PIN and the appellant's comparables #1 and #4 have PINs beginning with 05-17, indicating the subject and the appellant's comparables #1 and #4 are located in section 17 of the township.

³ The board of review's comparables have property index numbers (PIN) beginning with 05-17, indicating the properties are located in section 17 of the township, like the subject.

The Board finds the best evidence of assessment equity to be board of review comparables #1, #2 and #4, which are located relatively close in proximity to the subject. These three comparables are overall more similar to the subject in dwelling size, design, age and some features. The comparables have improvement assessments ranging from \$187,469 to \$211,284 or from \$33.32 and \$38.75 per square foot of living area. The subject's improvement assessment of \$168,126 or \$31.38 per square foot of living area falls below the range established by the best comparables in the record. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
