

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Kristen Saunders
DOCKET NO.: 23-22743.001-R-1
PARCEL NO.: 04-12-215-016-0000

The parties of record before the Property Tax Appeal Board are Kristen Saunders, the appellant, by attorney Jeremy Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds ***No Change*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$20,187
IMPR.: \$89,641
TOTAL: \$109,828

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of frame and masonry exterior construction with 3,786 square feet of living area. The dwelling is approximately 62 years old. Features of the home include a basement with finished area, central air conditioning, 4 bathrooms, a fireplace and a 2-car garage. The property has an approximately 11,875 square foot site and is located in Glencoe, New Trier Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables located in the same assessment neighborhood code and within .50 of a mile of the subject property. The comparables are improved with 2-story class 2-06 dwellings of frame and masonry or masonry exterior construction ranging in size from 2,792 to 3,418 square feet of

living area. The homes range in age from 64 to 93 years old. Each comparable has a basement, central air conditioning, 2, 2½ or 3½ bathrooms and a 2-car garage. Three comparables have two fireplaces. The comparables have improvement assessments ranging from \$61,921 to \$78,300 or \$22.18 and \$22.91 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$84,655 or \$22.36 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$109,828. The subject property has an improvement assessment of \$89,641 or \$23.68 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located in the same assessment neighborhood code and three are within a ¼ of a mile of the subject property. The comparables are improved with 2-story class 2-06 dwellings of frame and masonry exterior construction ranging in size from 3,038 to 3,512 square feet of living area. The homes range in age from 64 to 71 years old. Each comparable has central air conditioning, one or two fireplaces, 2½, 3 or 5½ bathrooms and a 1-car or a 2-car garage. Three comparables have a basement, with two having finished area, and one comparable has a concrete slab foundation. The comparables have improvement assessments ranging from \$72,790 to \$83,215 or from \$23.69 to \$25.24 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #1, #2 and #3 and the board of review's comparables # 2, #3 and #4 which are less similar to the subject in age and/or dwelling size.

The Board finds the best evidence of assessment equity to be the appellant's comparable #4 and the board of review's comparable #1 which are more similar to the subject in location, age, design and dwelling size. However, the Board finds the appellant's comparable #4 lacks basement finished area and the board of review's comparable #1 lacks a basement with finished area. And both comparables have fewer number of bathrooms, suggesting upward adjustments would be required to make the comparable more equivalent to the subject. Additionally, the dwellings have varying degrees of similarity in fireplace count when compared the subject necessitating additional adjustments. These two comparables have improvement assessments of \$78,300 and \$83,215 or \$22.91 and \$23.69 per square foot of living area. The subject's improvement assessment of \$89,641 or \$23.68 per square foot of living area falls above the two best comparables in this record in terms of overall improvement assessment and bracketed on a

per square foot basis. The subject's higher overall value appeared to be logical given the subject's superior features. After considering adjustments to the two best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
