

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Susana Davalos
DOCKET NO.: 23-23165.001-R-1
PARCEL NO.: 27-02-108-015-0000

The parties of record before the Property Tax Appeal Board are Susana Davalos, the appellant(s), by attorney Brian P. Liston, of the Law Offices of Liston & Tsantilis, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$6,026
IMPR.: \$26,578
TOTAL: \$32,604

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a one-story, single-family dwelling of masonry construction with 1,808 square feet of living area. The dwelling is 53 years old. Features include a partial basement and two full bathrooms and a half bath. The property has a 10,957 square foot site and is located in Orland Park, Orland Township, Cook County. The subject is a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant asserts assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on three suggested equity comparables. The suggested comparable properties ranged in size from 1,832 to 2,355 square feet of living area. Each suggested comparable had one fireplace, a partial basement, and air conditioning. Two of the suggested properties had two full bathrooms and a half bath, and one had one full bathroom and a half bath. Each comparable property had a two-car garage. The appellant reported that the

suggested comparables were located between 0.2 and 1.4 miles of the subject property and ranged in age from 46 to 54 years old. The comparables have improvement assessments ranging from \$13.38 to \$14.02 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's assessment to \$30,705.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject as \$32,604. The subject property has an improvement assessment of \$26,578 or \$14.70 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four suggested equity comparables. The suggested comparable properties ranged in size from 1,808 to 1,840 square feet of living area. Three of the comparable properties had a single fireplace while one property had none. Three of the properties had a partial basement, and one comparable had a slab foundation. Two of the comparables were reported as having central air conditioning and two were not. The board of review listed three of the suggested comparables as having two full bathrooms and one of the comparables as having one full bathroom and a half bath. The properties had either a one and a half-car or two-car garage. The board of review reported that three of the suggested comparables were located on the same block as the subject property, and one property a quarter mile away. The comparables ranged in age from 53 to 58 years old and have improvement assessments ranging from \$15.18 to \$16.27 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The taxpayer asserts assessment inequity as the basis of the appeal. The Illinois Constitution requires that real estate taxes "be levied uniformly by valuation ascertained as the General Assembly shall provide by law." Ill. Const., art. IX, § 4 (1970); Walsh v. Property Tax Appeal Board, 181 Ill. 2d 228, 234 (1998). This uniformity provision of the Illinois Constitution does not require absolute equality in taxation, however, and it is sufficient if the taxing authority achieves a reasonable degree of uniformity. Peacock v. Property Tax Appeal Board, 339 Ill. App. 3d 1060, 1070 (4th Dist. 2003).

When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill. Admin. Code §1910.63(e); Walsh, 181 Ill. 2d at 234 (1998). Clear and convincing evidence means more than a preponderance of the evidence, but it does not need to approach the degree of proof needed for a conviction of a crime. Bazyldo v. Volant, 164 Ill. 2d 207, 213 (1995). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill. Admin. Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be appellant's comparable #3 and the board of review's #1, #2, and #3. These comparable properties had similar sized living areas, similar age, similar features and were located within a much closer degree of proximity to the subject property than all other comparables. In comparison, appellant's comparables #1 and #2 were over a mile from the subject property. The Board finds that these comparables are afforded

less weight based on distance from the subject property. The board of review's comparable #4 was afforded less weight based on the design of the house. This comparable had a slab foundation, which distinguishes it from the subject property.

The best evidence comparables ranged in improvement assessment of \$14.02 to \$16.27 per square foot of living area. The subject's improvement assessment of \$14.70 per square foot of living area falls within the range established by the best comparables in this record. After considering adjustments to these comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is supported. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
