

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jonathan Shean
DOCKET NO.: 23-23416.001-R-1
PARCEL NO.: 05-28-113-003-0000

The parties of record before the Property Tax Appeal Board are Jonathan Shean, the appellant, by attorney Brian P. Liston, of the Law Offices of Liston & Tsantilis, P.C., in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$21,440
IMPR.: \$67,338
TOTAL: \$88,778

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with approximately 3,106 square feet of living area and which is approximately 82 years old. Features include a full basement, central air conditioning, 2 full bathrooms, 2 half-baths, one fireplace, and a two-car garage. The property has a 6,700 square foot site and is located in Wilmette, New Trier Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables located in the same neighborhood code as the subject and within .8 of a mile from the subject. The comparables consist of class 2-06 two-story dwellings of masonry exterior construction. The dwellings range in age from 75 to 90 years old. The dwellings range in size

from 3,152 to 3,577 square feet of living area. Features include a full basement, 2 or 4 full bathrooms, 1 or 2 half-baths, central air conditioning, one or two fireplaces, and a two-car garage. The comparables have improvement assessments ranging from \$52,500 to \$68,457 or from \$16.66 to \$19.14 per square foot of living area.

Based on this evidence, the appellant requested a reduced improvement assessment of \$55,100 or \$17.74 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$88,778. The subject property has an improvement assessment of \$67,338 or \$21.68 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on three equity comparables located in the same neighborhood code as the subject and same block or ¼ of a mile from the subject. The comparables consist of class 2-06 two-story dwellings of masonry exterior construction which range in age from 79 to 92 years old. The dwellings range in size from 2,570 to 2,913 square feet of living area. The comparables have full basements, 2 or 2½ bathrooms, one, two or four fireplaces, and a 1.5-car or a 2-car garage. Two comparables each have central air conditioning. The comparables have improvement assessments ranging from \$56,180 to \$74,494 or from \$21.86 to \$26.35 per square foot of living area.

Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of six suggested equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to appellant's comparable #3 and board of review comparable #2, due to substantial differences in dwelling size of approximately 15% and 17%, respectively, when compared to the subject and other comparables in the record which are more similar in size to the subject dwelling.

The Board finds the best evidence of assessment equity consists of appellant's comparables #1 and #2 as well as board of review comparables #1 and #3, which present varying degrees of similarity to the subject. All of the best comparables share the same neighborhood code, classification code, air conditioning feature, and foundation type. Adjustments are necessary for differences in age, bathroom count, fireplace count, garage capacity, and/or dwelling size when compared to the subject in order to make the comparables more similar to the subject. The best

comparables have improvement assessments ranging from \$52,500 to \$74,494 or from \$16.66 to \$26.35 per square foot of living area. The subject's improvement assessment of \$67,338 or \$21.68 per square foot of living area is within the range of the best comparables in the record both in terms of overall improvement assessment and on a per-square-foot of living area basis.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence.

Based on this record and after considering appropriate adjustments to the best comparables for differences from the subject to make the comparables more similar to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
