

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Emanuel Provataris
DOCKET NO.: 23-24158.001-R-1
PARCEL NO.: 27-20-322-065-0000

The parties of record before the Property Tax Appeal Board are Emanuel Provataris, the appellant(s), by attorney William I. Sandrick, of Sandrick Law Firm, LLC in Homewood; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$13,585
IMPR.: \$26,415
TOTAL: \$40,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of masonry construction with 2,357 square feet of living area. The dwelling was 22 years old. Features of the home include a full basement, central air conditioning, two fireplaces and a three-car garage. The property has a 19,408 square foot site and is located in Orland Park, Orland Township, Cook County. The property is a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted an appraisal estimating the subject property had a market value of \$400,000, or \$169.71 per square foot of living area, including land, as of January 1, 2023. The appraisal was prepared by a certified residential appraiser and included an inspection of the site on

November 11, 2023. The appraiser indicated that the highest and best use of the property was its current use. The appraiser used the sales comparison approach to valuation.

Under the sales comparison approach, the appraiser utilized three comparable sales properties located within a 0.26-mile radius of the subject.¹ The comparable properties sites had 9,375 square feet of land area and from 2,232 to 2,623 square feet of living area. The properties are each improved with a single-family dwelling of masonry or frame and masonry construction that were 31 or 32 years old. The comparable properties sold from May 2021 to August 2021 for prices ranging from \$365,500 to \$415,000. The appraiser adjusted, if applicable, for site, view, amenities, condition, location and square feet of living area. The appraiser concluded that based on the sales data and applying adjustments to the comparable sales for differences from the subject, the subject had a market value of \$400,000. The appellant disclosed that this is an owner-occupied residence. Based on this evidence the appellant is seeking a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$48,999. The subject's assessment reflects a market value of \$489,990 or \$207.89 per square foot of living area, including land, when applying the level of assessments for class 2 property under the Cook County Real Property Assessment Classification Ordinance of 10%.

In support of its contention of the correct assessment the board of review submitted information on four class 2-04 comparable sales properties which sold from January 2021 to October 2022 for sales prices from \$420,000 to \$510,000 or from \$172.56 to \$225.63 per square foot of living area, land included in the sales prices. These property's improvements were from 26 to 31 years old and had from 2,216 to 2,523 square feet of living area. Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of market value to be the appraisal submitted by the appellant. The Board finds the appellant submitted a credible appraisal report with reasonable and logical adjustments for differences from the subject. The comparable sales properties presented by the board of review lacked adjustments for significant differences when compared to the subject property. The subject's current assessment reflects a market value of \$489,990, which is higher than the appraised value. Based on the evidence presented, the Board finds the subject property is overvalued and a reduction commensurate with the appellant's request is warranted. Since

¹ The appraisal also contained a fourth comparable sale property which the appraiser considered but gave no weight due to significant differences from the subject.

market value has been established the level of assessment for class 2 property under the Cook County Real Property Assessment Classification Ordinance shall apply. (86 Ill.Admin.Code §1910.50(c)(2)).

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
