

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Maria Pitts  
DOCKET NO.: 23-24159.001-R-1  
PARCEL NO.: 16-29-312-027-0000

The parties of record before the Property Tax Appeal Board are Maria Pitts, the appellant, by attorney Andreas Mamalakis of the Law Offices of Andreas Mamalakis in Kenosha; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$4,063  
**IMPR.:** \$19,483  
**TOTAL:** \$23,546

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 1.7-story dwelling of masonry exterior construction with 1,912 square feet of living area. The dwelling is approximately 98 years old. The home features a full basement with finished area,<sup>1</sup> two full bathrooms, central air conditioning and a two-car garage. The property has a 3,780 square foot site and is located in Cicero, Cicero Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables that have the same assessment neighborhood code as the subject and are located

<sup>1</sup> The board of review disclosed the subject's basement is finished with a formal recreation room, which was not reported by nor was it refuted by the appellant.

within .70 of a mile from the subject property. The comparables are class 2-04 properties that are improved with 1.5-story dwellings of frame and masonry exterior construction ranging in size from 1,865 to 2,282 square feet of living area. The dwellings range in age from 97 to 107 years old. Two comparables each have a crawl space foundation and three comparables each have a full basement. Each comparable has one or two full bathrooms, two fireplaces and a two-car garage. Two comparables each have an additional half bathroom and two comparables have central air conditioning. The comparables have improvement assessments that range from \$14,937 to \$19,905 or from \$8.01 to \$9.45 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$16,309 or \$8.53 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$23,546. The subject property has an improvement assessment of \$19,483 or \$10.19 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code as the subject and are located along the same street as the subject property and within ¼ of a mile from the subject. The comparables are class 2-04 properties that are improved with 1.5-story dwellings of masonry or frame and masonry exterior construction ranging in size from 1,838 to 2,125 square feet of living area. The dwellings range in age from 86 to 103 years old. The comparables each have a full basement, two of which have finished area. Each comparable has one or two full bathrooms and a two-car garage. Two comparables each have an additional half bathroom and three comparables have central air conditioning. The comparables have improvement assessments that range from \$18,926 to \$22,936 or from \$10.30 to \$11.88 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables, as well as board of review comparable #3 due to their lack of a basement foundation or their lack of central air conditioning, both features of the subject. Additionally, the appellant's comparables #1 and #4 differ from the subject in dwelling size.

The Board finds the best evidence of assessment equity to be board of review comparables #1, #2 and #4, which have basement foundations and central air conditioning, like the subject and are similar to the subject in location, dwelling size, design and age. The comparables have

improvement assessments ranging from \$18,926 to \$22,936 or from \$10.30 to \$11.88 per square foot of living area. The subject's improvement assessment of \$19,483 or \$10.19 per square foot of living area falls within the range established by the best comparables in the record in terms of overall improvement assessment and below the range on a per square foot of living area basis. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
