

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Marcelo Montoya  
DOCKET NO.: 23-24224.001-R-1  
PARCEL NO.: 16-21-225-007-0000

The parties of record before the Property Tax Appeal Board are Marcelo Montoya, the appellant, by attorney Andreas Mamalakis, of the Law Offices of Andreas Mamalakis in Kenosha; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$3,386  
**IMPR.:** \$22,407  
**TOTAL:** \$25,793

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 2-story building of masonry exterior construction containing 2,037 square feet of building area. The building is approximately 99 years old. Features of the building include a full basement and a 2-car garage. The property has an approximately 3,150 square foot site and is located in Cicero, Cicero Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables that are located in the same assessment neighborhood code as the subject property. The comparables are improved with class 2-11, 1-story, 1.5-story or 2-story buildings of masonry exterior construction that range in size from 2,244 to 2,434 square feet of building area. The buildings range in age from 93 to 98 years old. Each comparable has a full or partial basement and two fireplaces. Four comparables each have either a 2-car or 2.5-car garage. The

comparables have improvement assessments that range from \$16,443 to \$21,721 or from \$7.02 to \$9.25 per square foot of building area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$17,477 or \$8.58 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$25,793. The subject property has an improvement assessment of \$22,407 or \$11.00 per square foot of building area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with class 2-11, 2-story buildings of masonry exterior construction that range in size from 2,016 to 2,112 square feet of building area. The buildings range in age from 95 to 102 years old. Each comparable has a full basement and a 2-car garage. One comparable has central air conditioning. The comparables have improvement assessments that range from \$22,176 to \$25,640 or from \$11.00 to \$12.57 per square foot of building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains nine suggested equity comparables for the Board's consideration. The Board has given less weight to the appellant's comparables due to their differences from the subject in building size or design. The Board has given reduced weight to board of review comparable #4 due to its feature of central air conditioning, an amenity the subject lacks.

The Board finds the best evidence of assessment equity to be board of review comparables #1, #2 and #3. The Board finds that these three comparables are most similar to the subject in building size, design, age and some features. These three most similar comparables have improvement assessments ranging from \$22,176 to \$24,613 or from \$11.00 to \$11.65 per square foot of building area. The subject's improvement assessment of \$22,407 or \$11.00 per square foot of building area falls within the low end of the range of the three best comparables in this record. Based on this record and after considering adjustments to the three best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
