

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Sergio Nunez
DOCKET NO.: 23-24228.001-R-1
PARCEL NO.: 16-28-108-034-0000

The parties of record before the Property Tax Appeal Board are Sergio Nunez, the appellant, by attorney Andreas Mamalakis of the Law Offices of Andreas Mamalakis in Kenosha; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,896
IMPR.: \$22,103
TOTAL: \$25,999

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story multi-family building of masonry exterior construction with 2,032 square feet of gross building area. The building is approximately 102 years old. Features of the property include a concrete slab foundation, two bathrooms and a two-car garage. The property has a site with 3,625 square feet of land area and is located in Cicero, Cicero Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables that have the same assessment neighborhood code as the subject and are located within .40 of a mile from the subject property. The comparables are class 2-11 properties that are improved with two-story multi-family buildings of masonry exterior construction ranging in

size from 2,160 to 2,423 square feet of gross building area. The buildings range in age from 107 to 113 years old. Two comparables each have a concrete slab foundation and three comparables each have a full basement. Each comparable has two or three bathrooms, two fireplaces and a two-car garage. The comparables have improvement assessments that range from \$14,710 to \$19,614 or from \$6.81 to \$8.32 per square foot of gross building area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment of \$15,870 or \$7.81 per square foot of gross building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$25,999. The subject property has an improvement assessment of \$22,103 or \$10.88 per square foot of gross building area.

In support of its contention of the correct assessment the board of review submitted information on three equity comparables that have the same assessment neighborhood code as the subject and are located within the same block as the subject property, two of which are also along the same street as the subject. The comparables are class 2-11 properties that are improved with two-story multi-family buildings of masonry exterior construction ranging in size from 1,918 to 2,035 square feet of gross building area. The buildings range in age from 110 to 112 years old. One comparable has a concrete slab foundation, one comparable has a crawl space foundation and one comparable has a full basement. Each comparable has two or three bathrooms and a two-car garage. The comparables have improvement assessments of \$22,103 and \$23,103 or from \$11.35 to \$12.05 per square foot of gross building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparable #1, which appears to be an outlier due to its significantly lower improvement assessment of \$14,710 or \$6.81 in relation to the other comparables in the record. The Board has also given less weight to the appellant's comparables #2 through #5, as well as board of review comparable #3 due to differences from the subject in building size and/or they have a basement foundation, unlike the subject.

The Board finds the best evidence of assessment equity to be board of review comparables #1 and #2, which are overall more similar to the subject in location, building size, design, age and some features. These two comparables have improvement assessments of \$23,103 or \$11.35 and \$12.05 per square foot of gross building area, respectively. The subject's improvement assessment of \$22,103 or \$10.88 per square foot of gross building area falls below the two best

comparables in the record both in terms of overall improvement assessment and on a per square foot of gross building area basis. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
