

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Quoc Hien Dang  
DOCKET NO.: 23-24477.001-R-1  
PARCEL NO.: 16-19-112-024-0000

The parties of record before the Property Tax Appeal Board are Quoc Hien Dang, the appellant, by attorney Andreas Mamalakis, of the Law Offices of Andreas Mamalakis in Kenosha; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$3,709  
**IMPR.:** \$24,898  
**TOTAL:** \$28,607

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 2-story apartment building of masonry exterior construction with 2,080 square feet of gross building area. The building is 58 years old and features a full basement, central air conditioning, and a 2-car garage. The property has a 3,297 square foot site and is located in Berwyn, Berwyn Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables located within the subject's assessment neighborhood and within .37 of a mile of the subject. The comparables consist of 1-story, 1.5-story, or 2-story class 2-11 buildings of masonry exterior construction ranging in size from 2,196 to 2,496 square feet of gross building area. The buildings range in age from 61 to 70 years old. Each building has a full basement and

a 1.5-car or 2-car garage. One comparable has central air conditioning. The comparables have improvement assessments ranging from \$23,316 to \$25,409 or from \$9.72 to \$10.62 per square foot of gross building area. Based on this evidence, the appellant requested a reduced improvement assessment of \$21,008 or \$10.10 per square foot of gross building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$28,607. The subject property has an improvement assessment of \$24,898 or \$11.97 per square foot of gross building area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within the subject's assessment neighborhood and within the same block as the subject. The comparables consist of 1-story or 2-story class 2-11 buildings of masonry exterior construction ranging in size from 1,764 to 2,434 square feet of gross building area. The buildings are 54 to 64 years old. Each building has a full basement, with finished area, and a 2-car garage. Two comparables have central air conditioning. The comparables have improvement assessments ranging from \$21,451 to \$29,146 or from \$11.97 to \$14.66 per square foot of gross building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill. Admin. Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity, and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill. Admin. Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of eight equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to the appellant's comparables #1, #3, and #4, as well as the board of review's comparables #2 and #4, which differ from the subject in design and/or lack central air conditioning, a feature of the subject. The Board finds the parties' remaining comparables are similar to the subject in age, location, building size, and features. These comparables have improvement assessments that range from \$24,147 to \$29,146 or from \$9.86 to \$14.66 per square foot of gross building area. The subject's improvement assessment of \$24,898 or \$11.97 per square foot of gross building area falls within the range established by the best comparables in this record. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
