

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Soryana Capital LLC - Series 17  
DOCKET NO.: 23-25296.001-R-1  
PARCEL NO.: 08-27-102-116-0000

The parties of record before the Property Tax Appeal Board are Soryana Capital LLC - Series 17, the appellant, by attorney Dora Cornelio, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$3,531  
**IMPR.:** \$45,132  
**TOTAL:** \$48,663

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 2-story building of masonry exterior construction with 5,329 square feet of gross building area. The building is approximately 44 years old. Features of the building include a basement with finished area and central air conditioning. The property has an approximately 2,207 square foot site and is located in Elk Grove, Elk Grove Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted five equity comparables that are located in the same assessment neighborhood code as the subject. The comparables are improved with class 2-11, 2-story buildings of frame and masonry exterior construction that each contain 5,686 square feet of gross building area. The buildings are 49 or 50 years old. Each comparable has a basement with finished area. The comparables have improvement assessments that range from \$40,904 to \$41,486 or from \$7.19 to \$7.30 per square foot of gross building area. Based on

this evidence, the appellant requested the subject's improvement assessment be reduced to \$38,795 or \$7.28 per square foot of gross building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$54,999. The subject property has an improvement assessment of \$51,468 or \$9.66 per square foot of gross building area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same assessment neighborhood code as the subject. The comparables are improved with class 2-11, 2-story buildings of masonry exterior construction that each contain 4,050 square feet of gross building area. The buildings are 43 or 44 years old. Each comparable has a basement with finished area. The comparables have improvement assessments that range from \$46,575 to \$50,558 or from \$11.50 to \$12.48 per square foot of gross building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The record contains nine suggested equity comparables for the Board's consideration. The Board has given less weight to the board of review comparables due to their considerably smaller building size when compared to the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparables. The Board finds that these comparables are most similar to the subject in neighborhood code, age, building size and some features. These most similar comparables have improvement assessments ranging from \$40,904 to \$41,486 or from \$7.19 to \$7.30 per square foot of gross building area. The subject's improvement assessment of \$51,468 or \$9.66 per square foot of gross building area is greater than the best comparables in this record. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
