

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Laddie Targosz  
DOCKET NO.: 23-25571.001-R-1  
PARCEL NO.: 27-06-103-011-0000

The parties of record before the Property Tax Appeal Board are Laddie Targosz, the appellant(s), by attorney Andreas Mamalakis, of the Law Offices of Andreas Mamalakis in Kenosha; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds *No Change* in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$6,579  
**IMPR.:** \$34,420  
**TOTAL:** \$40,999

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a forty-three-year-old, two-story dwelling of frame and masonry construction with 2,667 square feet of living area. The property has a 10,527 square foot site and is located in Orland Park, Orland Township, Cook County. Features of the home include an unfinished full basement, one fireplace, central air conditioning, and a two-car garage. The subject is classified as a Class 2-78 property under the Cook County Real Property Assessment Classification Ordinance. The record reflects that the subject property is owner-occupied.

The appellant contends assessment inequity with regard to the subject improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables with varying degrees of similarity to the subject. The suggested comparable properties ranged in size from 2,331 to 3,145 square feet of living area. Each suggested comparable property has at least one fireplace. Three of the suggested properties had a partial

basement, one comparable had a full basement, and one comparable is on a slab. Each of the suggested comparables was listed as having central air conditioning except for one. Each comparable property had a two-car garage. The appellant reported that the suggested comparables were located between 0.29 and .5 miles from the subject property. Each comparable did have the same neighborhood code as the subject property. The comparables ranged in age from 37 to 52 years old. The comparables have improvement assessments ranging from \$7.47 to \$8.37 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's assessment to \$27,435.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$40,999. The subject property has an improvement assessment of \$34,420 or \$12.91 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on three equity comparables. The suggested comparable properties ranged in size from 2,247 to 2,550 square feet of living area. Each of the suggested comparable properties had one fireplace. Each suggested property had unfinished, partial basements and central air conditioning. Two of the comparables had two-car garage and one had a three-car garage. The board of review reported that one of the suggested comparables was located on the same block and two were located within a quarter of a mile of the subject property. Each comparable had the same neighborhood code as the subject property. The comparables ranged in age from 33 to 44 years old. The comparables have improvement assessments ranging from \$12.61 to \$14.01 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

### **Conclusion of Law**

The taxpayer asserts assessment inequity as the basis of the appeal. The Illinois Constitution requires that real estate taxes, "be levied uniformly by valuation ascertained as the General Assembly shall provide by law." Ill. Const. art. IX, §4 (1970); *Walsh v. Property Tax Appeal Board*, 181 Ill. 2d 228, 234 (1998). This uniformity provision of the Illinois Constitution does not require absolute equality in taxation, however, and it is sufficient if the taxing authority achieves a reasonable degree of uniformity. *Peacock v. Property Tax Appeal Board*, 339 Ill. App. 3d 1060, 1070 (4th Dist. 2003).

When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by the appellant by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e); *Walsh*, 181 Ill. 2d at 234 (1998). Clear and convincing evidence means more than a preponderance of the evidence, but it does not need to approach the degree of proof needed for a conviction of a crime. *Bazyldo v. Volant*, 164 Ill. 2d 207, 213 (1995). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity, and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant failed to meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be appellant's comparables #3 and #5 and the board of review's comparables #1, #2, and #3. Like the subject property, these

comparables are class 2-78, single-family dwellings. These comparable properties were most similar to the subject property based on similarly sized living areas, similar age, similar features and proximity to the subject property. In comparison, the appellant's comparables #1, #2, and #4 were .4 miles or more from the subject property. Appellant's comparable #1 was significantly larger than the subject property and comparable #4 did not have a basement. The Board finds that these comparables are afforded less weight based on distance from the subject property and their disparity to the subject property characteristics.

The best evidence comparables ranged in improvement assessment of \$7.78 to \$14.01 per square foot of living area. The subject's improvement assessment of \$12.91 per square foot of living area falls within the range established by the best comparables in this record. After considering adjustments to these comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is supported. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
