Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of four parcels improved with a 1-story dwelling of frame exterior construction with 1,017 square feet of living area. The dwelling is 60 years old. Features of the home include a crawl-space foundation and a 1-car garage. The property has a combined 12,500 square foot site and is located in Steger, Bloom Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with regard to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables located in the subject's assessment neighborhood and within .6 of a mile of the

subject. The comparables consist of 1-story class 2-03 dwellings of frame exterior construction ranging in size from 1,013 to 1,196 square feet of living area. The homes range in age from 49 to 68 years old. Each dwelling has either a crawl-space or concrete slab foundation and a 1-car or 2.5-car garage. The comparables have improvement assessments ranging from \$6,914 to \$7,847 or from \$6.22 to \$7.01 per square foot of living area. Based on this evidence, the appellant requested a reduced improvement assessment of \$6,834 or \$6.72 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for one of the subject's PINs of \$5,100. The appellant reported that the subject has a total assessment of \$12,386 and a combined improvement assessment of \$8,014 or \$7.88 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on three equity comparables located within the subject's assessment neighborhood and within .25 of a mile of the subject. The comparables consist of 1-story class 2-03 dwellings of frame or masonry exterior construction ranging in size from 1,021 to 1,337 square feet of living area. The homes range from 52 to 71 years old. Each comparable has a full basement, one dwelling has central air conditioning, and two comparables each have a 1.5-car or 2-car garage. The comparables have improvement assessments ranging from \$8,831 to \$11,482 or from \$8.59 to \$8.98 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill. Admin. Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity, and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill. Admin. Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted a total of seven equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to the comparables submitted by the board of review, which differ from the subject in foundation and/or either feature central air conditioning or lack a garage, unlike the subject. The Board finds the comparables presented by the appellant are similar to the subject in age, location, dwelling size, and features. These comparables have improvement assessments ranging from \$6,914 to \$7,847 or from \$6.22 to \$7.01 per square foot of living area. The subject's combined improvement assessment of \$8,014 or \$7.88 per square foot of living area is above the range established by the best comparables in this record. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
