

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Santimoy Banerjee
DOCKET NO.: 23-27377.001-R-1
PARCEL NO.: 08-24-105-013-0000

The parties of record before the Property Tax Appeal Board are Santimoy Banerjee, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$8,064
IMPR.: \$27,936
TOTAL: \$36,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of frame and masonry exterior construction with 2,406 square feet of living area. The home is approximately 57 years old. Features include a partial basement, central air conditioning, a fireplace and a 2-car garage. The property has an 8,960 square foot site and is located in Des Plaines, Elk Grove Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four comparables located within the subject's same assessment neighborhood and from 226 feet to 0.2 of a mile of the subject property. The comparables consist of class 2-78, 2-story dwellings of frame or frame and masonry exterior construction ranging in size from 2,359 to 2,724 square feet of living area.

The homes are 54 or 62 years old. Each comparable has a partial basement, central air conditioning, and either a 1-car or a 2-car garage. Three comparables each have a fireplace. The comparables have improvement assessments ranging from \$21,580 to \$29,613 or from \$9.15 to \$11.16 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$26,153 or \$10.87 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$36,000. The subject property has an improvement assessment of \$27,936 or \$11.61 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four comparables located within the same assessment neighborhood as the subject and within the subject's same block or approximately ¼ of a mile from the subject. The comparables consist of class 2-78, 2-story dwellings of frame and masonry exterior construction ranging in size from 2,080 to 2,491 square feet of living area. The homes are 55 or 57 years old. Each comparable has a full or partial basement and a 2-car garage. Three comparables have central air conditioning. Two comparables have a fireplace. The comparables have improvement assessments ranging from \$26,784 to \$29,936 or from \$12.02 to \$13.70 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparable #2 and the board of review comparables #3 and #4 which are less similar to the subject in dwelling size than the other comparables in the record.

The Board the best evidence of assessment equity to be the parties' remaining comparables which are relatively similar to the subject in location, design, age, dwelling size, and some features. The parties' comparables have improvement assessments ranging from \$21,580 to \$29,936 or from \$9.15 to \$12.69 per square foot of living area. The subject's improvement assessment of \$27,936 or \$11.61 per square foot of living area falls within range established by the best comparables in this record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
