

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: David & Candice Aguirre
DOCKET NO.: 23-27419.001-R-1
PARCEL NO.: 27-02-107-012-0000

The parties of record before the Property Tax Appeal Board are David & Candice Aguirre, the appellants, by attorney George N. Reveliotis, of Reveliotis Law, P.C. in Park Ridge; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,844
IMPR.: \$32,482
TOTAL: \$38,326

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellants timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame and masonry exterior construction with 2,459 square feet of living area. The dwelling is approximately 51 years old. Features of the home include a partial basement with finished area, 3 bathrooms, central air conditioning, 2 fireplaces and a 2-car garage. The property has a 10,625 square foot site and is located in Orland Park, Orland Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellants contend assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellants submitted information, including property characteristics printouts, on four comparables located within the subject's assessment neighborhood and within 0.32 of a mile from the subject. The comparables consist of class 2-78, two-story dwellings of masonry or frame and masonry exterior construction ranging in size from

2,267 to 2,730 square feet of living area. The homes are 38 to 55 years old. The homes have partial basements with one having finished area, 2½ bathrooms, central air conditioning, 1 or 2 fireplaces and a 2-car garage. The comparables have improvement assessments ranging from \$21,000 to \$34,824 or from \$9.26 to \$12.76 per square foot of living area. Based on this evidence, the appellants requested that the subject's improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject property of \$38,326. The subject property has an improvement assessment of \$32,483 or \$13.21 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four comparables located within the subject's assessment neighborhood and within ¼ of a mile of the subject. The comparables consist of class 2-78, two-story dwellings of masonry exterior construction each containing 2,267 square feet of living area. The homes are 52 to 54 years old. Each comparable has a partial or full unfinished basement, 2 or 2½ bathrooms, central air conditioning, a fireplace and a 2-car garage. The comparables have improvement assessments ranging from \$30,548 to \$32,928 or from \$13.48 to \$14.52 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The appellants contend assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellants did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gives less weight to the appellants' comparable #1 due to the dwellings significantly newer age when compared to the subject. In addition, the Board has given less weight to the appellants' comparable #4 which appears to be an outlier with its significantly lower improvement assessment relative to the other comparables in the record.

The Board finds the best evidence of assessment equity to be the parties' remaining comparables which are relatively similar to the subject in location, age, dwelling size, and most features. These six comparables have improvement assessments ranging from \$27,250 to \$32,928 or from \$11.19 to \$14.52 per square foot of living area. The subject's improvement assessment of \$32,483 or \$13.21 per square foot of living area falls within the range established by the best comparables in the record. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellants did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
