

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ronald Little
DOCKET NO.: 23-27571.001-R-1
PARCEL NO.: 08-11-211-017-0000

The parties of record before the Property Tax Appeal Board are Ronald Little, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$7,800
IMPR.: \$29,674
TOTAL: \$37,474

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story dwelling of masonry exterior construction with 1,618 square feet of living area. The dwelling is approximately 71 years old. Features of the home include a full basement with finished area, a fireplace and a 1-car garage. The property has a 7,800 square foot site and is located in Mount Prospect, Elk Grove Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four comparables located within the same assessment neighborhood code as the subject and within 0.80 of a mile from the subject. The comparables are improved with class 2-03 dwellings of masonry exterior construction ranging in size from 1,511 to 1,793 square feet of living area. The dwellings are 65

to 74 years old. The dwellings have full basements, but no data was provided if the basements have finished area. Each comparable has 1 or 2 fireplaces and either a 1-car or a 2-car garage. The comparables have improvement assessments ranging from \$26,068 to \$28,549 or from \$15.64 to \$17.25 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$26,584 or \$16.43 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$37,474. The subject property has an improvement assessment of \$29,674 or \$18.34 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on three comparables located in the same assessment neighborhood code as the subject and within approximately $\frac{1}{4}$ of a mile from the subject. The comparables are improved with class 2-03 dwellings of masonry exterior construction ranging in size from 1,409 to 1,520 square feet of living area. The comparables are 72 or 75 years old. Each comparable has a full basement, one of which has finished area, and either a 1-car or a 1½-car garage. Two comparables each have central air conditioning, and one comparable has 1 fireplace. The comparables have improvement assessments of \$29,200 or \$31,200 or from \$20.53 to \$20.72 per square foot of living area. Based on this evidence, the board of review requested the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven comparables for the Board's consideration. All of the comparables are relatively similar to the subject in location, dwelling size and age, but still require adjustments for differences in features to the subject property, including but not limited to the comparables that lack a basement finish in relation to the subject's finished basement area. The parties' seven comparables have improvement assessments ranging from \$26,068 to \$31,200 or from \$15.64 to \$20.72 per square foot of living area. The subject's improvement assessment of \$29,674 or \$18.34 per square foot of living area falls within the range established by all the comparables in the record. Based on this record and after considering adjustments to both parties' comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
