

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Judith Wells
DOCKET NO.: 23-27584.001-R-1
PARCEL NO.: 08-14-120-006-0000

The parties of record before the Property Tax Appeal Board are Judith Wells, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$8,255
IMPR.: \$33,746
TOTAL: \$42,001

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of frame and masonry exterior construction with 2,616 square feet of living area. The dwelling was built in 1964 and is approximately 59 years old. Features include a partial basement with finished area, central air conditioning, one fireplace, and a 2-car garage. The property has an 8,255 square foot site and is located in Mount Prospect, Elk Grove Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located within the subject's assessment neighborhood and within 0.8 of a mile from the subject property. The comparables are improved with 2-story, class 2-78 dwellings of frame or frame and masonry exterior construction ranging in size from 2,392 to 2,874 square feet of

living area. The homes range in age from 51 to 61 years old. Each comparable has a full or partial basement, central air conditioning, and a 2-car garage. Three comparables each have one or two fireplaces. The comparables have improvement assessments ranging from \$26,882 to \$31,019 or from \$10.28 to \$12.04 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$42,001. The subject property has an improvement assessment of \$33,746 or \$12.90 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the subject's assessment neighborhood and on the same block, two of which are also along the same street as the subject property. The comparables are improved with 2-story, class 2-78 dwellings of frame and masonry exterior construction ranging in size from 2,584 to 2,860 square feet of living area. The homes range in age from 56 to 59 years old. Each comparable has a full or partial basement, central air conditioning, one or two fireplaces, and a 2-car garage. The comparables have improvement assessments ranging from \$34,745 to \$38,745 or from \$13.28 to \$14.99 per square foot of living area. Based on this evidence, the board of review requested the assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested equity comparables for the Board's consideration. The Board finds each of the parties' comparables to be similar, if not identical, to the subject in location, design/class, age, dwelling size, and most features. These comparables have improvement assessments ranging from \$26,882 to \$38,745 or from \$10.28 to \$14.99 per square foot of living area. The subject's improvement assessment of \$33,746 or \$12.90 per square foot of living area falls within the range established by the comparables in this record. After considering appropriate adjustments to the comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
