

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Spiro Kondos
DOCKET NO.: 23-28006.001-R-1
PARCEL NO.: 05-35-104-004-0000

The parties of record before the Property Tax Appeal Board are Spiro Kondos, the appellant, by attorney George N. Reveliotis of Reveliotis Law, P.C. in Park Ridge; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$23,443
IMPR.: \$107,988
TOTAL: \$131,431

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 3,426 square feet of living area. The dwelling is approximately 17 years old. Features of the dwelling include a full unfinished basement, four full bathrooms, two half bathrooms, central air conditioning, two fireplaces and a two-car garage. The property has an 8,525 square foot site and is located in Wilmette, New Trier Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on six equity comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located from .02 to .22 of a mile from the subject, two of which are also along the same street as the subject property. The comparables are improved with

two-story dwellings of masonry or frame and masonry exterior construction ranging in size from 2,560 to 3,666 square feet of living area. The dwellings are from 17 to 52 years old. The comparables each have a full or partial basement. No data was provided by the appellant concerning basement finish, if any, for the comparables. Each comparable has from two to four full bathrooms, central air conditioning, two fireplaces and a two-car garage. Five comparables each have an additional half bathroom. The comparables have improvement assessments ranging from \$63,399 to \$98,700 or from \$24.01 to \$29.20 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$90,001 or \$26.27 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$131,431. The subject property has an improvement assessment of \$107,988 or \$31.52 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located approximately ¼ of a mile from the subject property. The comparables are improved with two-story dwellings of masonry exterior construction ranging in size from 2,843 to 3,535 square feet of living area. The dwellings are from 17 to 26 years old. The comparables each have a full basement, three of which have finished area. Each comparable has from two to four full bathrooms, one additional half bathroom and central air conditioning. Three comparables each have two fireplaces and three comparables each have a two-car garage. The comparables have improvement assessments ranging from \$107,840 to \$128,660 or from \$36.40 to \$37.93 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted ten comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables #1, #4, #5 and #6, as well as board of review comparables #3 and #4 due to differences from the subject dwelling in age and/or size.

The Board finds the appellant's comparables #2 and #3, along with board of review comparables #1 and #2 have the same assessment neighborhood code and property classification code as the subject. These four comparables are overall most similar to the subject dwelling in size, design and age. However, the comparables have varying degrees of similarity when compared to the subject in features such as bathroom count, fireplace count, basement finish and/or garage amenity, suggesting adjustments would be required to make the comparables more equivalent to

the subject. Nevertheless, the comparables have improvement assessments ranging from \$85,947 to \$128,660 or from \$26.82 to \$37.73 per square foot of living area. The subject's improvement assessment of \$107,988 or \$31.52 per square foot of living area falls within the range established by the best comparables in the record both in terms of total improvement assessment and on a per square foot of living area basis. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence presented.

Based on this record, the Board finds a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
