

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Joseph White
DOCKET NO.: 23-28085.001-R-1
PARCEL NO.: 02-34-109-017-0000

The parties of record before the Property Tax Appeal Board are Joseph White, the appellant, by attorney Jeremy Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$12,306
IMPR.: \$45,351
TOTAL: \$57,657

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of frame and masonry exterior construction with 3,498 square feet of living area. The home was built in 2002 and is approximately 21 years old. Features include a full basement, central air conditioning, one fireplace, and a 3-car garage. The property has a 10,255 square foot site and is located in Rolling Meadows, Palatine Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located within the subject's assessment neighborhood code. The comparables are improved with two or more story, class 2-78 dwellings of frame and masonry exterior construction ranging in size from 3,234 to 3,285 square feet of living area. The homes range in

age from 31 to 46 years old. Each comparable has a full or partial basement, central air conditioning, one fireplace, and a 2-car garage. The comparables have improvement assessments ranging from \$35,708 to \$38,846 or from \$10.99 to \$11.92 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$57,657. The subject property has an improvement assessment of \$45,351 or \$12.96 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the subject's assessment neighborhood code. The comparables are located on the subject's tax block with one of these comparables also being located along the same street as the subject property. The comparables are improved with 2-story, class 2-78 dwellings of frame and masonry exterior construction with either 3,386 or 3,498 square feet of living area. The homes are either 20 or 22 years old. Each comparable has a full basement, central air conditioning, one fireplace, and a 3-car garage. The comparables have improvement assessments ranging from \$45,351 to \$45,982 or from \$12.96 to \$13.58 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables and board of review comparable #4 which are less similar to the subject in dwelling size and/or age than other comparables in this record.

The Board finds the best evidence of assessment equity to be the board of review comparables #1, #2, and #3 which identical or nearly identical the subject in location, design/class, age, dwelling size, and other features. The three best comparables have improvement assessments of either \$45,351 and \$45,353 or \$12.96 and \$12.97 per square foot of living area. The subject's improvement assessment of \$45,351 or \$12.96 per square foot of living area matches the improvement assessments of board of review comparables #1 and #2. After considering the adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
