

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Donald Pollmacher
DOCKET NO.: 23-28371.001-R-1
PARCEL NO.: 32-06-214-003-0000

The parties of record before the Property Tax Appeal Board are Donald Pollmacher, the appellant, by Amy C. Floyd, attorney-at-law in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,876
IMPR.: \$14,124
TOTAL: \$18,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 7,752 square foot site improved with a one-story dwelling of masonry exterior construction containing 1,198 square feet of living area. The dwelling is approximately 72 years old. Features of the property include a full basement, central air conditioning, one bathroom and a 1-car garage. The property is in Homewood, Bloom Township, Cook County. The subject a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends inequity regarding the improvement assessment as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables consisting of class 2-03 properties improved with one-story dwellings of frame, masonry or frame and masonry exterior construction that range in size from 1,116 to 1,665 square feet of living area. The comparables are 65 to 71 years old. Three comparables have slab foundations and one comparable has a crawl space foundation. The comparables have 1 or 1½

bathrooms, and a 1-car or 2-car garage. Two comparables have central air conditioning. Three comparables have one fireplace. These properties have the same neighborhood code as the subject property. The comparables have improvement assessments ranging from \$8,000 to \$13,250 or from \$4.80 to \$8.28 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$9,380.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$18,000. The subject property has an improvement assessment of \$14,124 or \$11.79 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables composed of class 2-03 properties improved with one-story dwellings of masonry exterior construction that have either 1,195 or 1,253 square feet of living area and are 71 or 72 years old. Each property has a full basement, one bathroom and a 1-car garage. Three comparables have central air conditioning and one comparable has one fireplace. The comparables have the same neighborhood code as the subject and are located along the same street and within the same block as the subject property. Each comparable has an improvement assessment of \$15,124 or \$12.07 and \$12.66 per square foot of living area. The board of review contends the building assessed value for the comparables are higher than the subject property which supports the assessed value as equitable.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on eight equity comparables with the same classification code and neighborhood code as the subject property to support their respective positions. The Board finds the best evidence of assessment equity to be the board of review comparables that are more like the subject property in location, exterior construction, dwelling size and features than are the comparables submitted by the appellant. Each of the board of review comparables has an improvement assessment of \$15,124 or \$12.07 and \$12.66 per square foot of living area. The subject's improvement assessment of \$14,124 or \$11.79 per square foot of living area falls below the best comparables in this record. Less weight is given the appellant's comparables due to differences from the subject in foundation and the fact comparables #1 and #3 are significantly larger than the subject in dwelling. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
