

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Latoya White
DOCKET NO.: 23-28522.001-R-1
PARCEL NO.: 32-06-216-012-0000

The parties of record before the Property Tax Appeal Board are Latoya White, the appellant, by attorney Andreas Mamalakis, of the Law Offices of Andreas Mamalakis in Kenosha; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,876
IMPR.: \$17,124
TOTAL: \$21,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of masonry exterior construction with 1,485 square feet of living area. The dwelling is approximately 70 years old. Features of the home include a basement and a 2-car garage. The property has a 7,752 square foot site and is located in Homewood, Bloom Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity regarding the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables located within the same assessment neighborhood code as the subject and within 0.87 of a mile from the subject. The comparables are improved with 1-story homes ranging in size from 1,434 to 1,715 square feet of living area that are from 55 to 72 years old. Three homes have a basement and two homes have a slab foundation. Two homes have central air

conditioning. Each comparable has a 1-car, a 2-car, or a 2.5-car garage. The comparables have improvement assessments ranging from \$9,000 to \$11,091 or from \$6.17 to \$6.86 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$9,697.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$21,000. The subject property has an improvement assessment of \$17,124 or \$11.53 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within the same assessment neighborhood code as the subject and on the same block as the subject. The comparables are improved with 1-story homes ranging in size from 1,128 to 1,370 square feet of living area that are 71 years old. Each home has a basement and a 1-car or a 3-car garage. Two homes have central air conditioning. The comparables have improvement assessments ranging from \$15,124 to \$18,124 or from \$11.77 to \$15.18 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be sustained.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains a total of nine equity comparables for the Board's consideration. The Board gives less weight to the board of review's comparable #1, which is a substantially smaller home than the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparables and the board of review's comparables #2, #3, and #4, which are similar to the subject in dwelling size, location, and some features but have varying degrees of similarity to the subject in age, foundation type, central air conditioning amenity, and garage size, suggesting adjustments to these comparables would be needed to make them more equivalent to the subject. These comparables have improvement assessments that range from \$9,000 to \$18,124 or from \$6.17 to \$13.73 per square foot of living area. The subject's improvement assessment of \$17,124 or \$11.53 per square foot of living area falls within the range established by the best comparables in this record. Based on this record and after considering appropriate adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
