

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Eric Grodsky
DOCKET NO.: 23-28844.001-R-1
PARCEL NO.: 14-30-119-028-0000

The parties of record before the Property Tax Appeal Board are Eric Grodsky, the appellant, by Dora Cornelio, attorney-at-law of Schmidt Salzman & Moran, Ltd. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$31,250
IMPR.: \$73,907
TOTAL: \$105,157

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a two-story dwelling of frame construction that contains 2,767 square feet of living area. The dwelling is approximately 13 years old. Features of the property include a full basement with a formal recreation room, central air conditioning, one fireplace, 3½ bathrooms and a 2-car garage. The property has a 3,125 square foot site located in Chicago, Lake View Township, Cook County. The subject is a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends inequity regarding the improvement assessment as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables consisting of class 2-78 properties improved with two-story dwellings of frame construction that range in size from 2,509 to 2,869 square feet of living area and are from 20 to 26 years old. Each comparable has a full basement with four having finished areas, central air

conditioning, and 1½, 2½ or 3½ bathrooms.¹ Three comparables have one or two fireplaces and four comparables each have a 2-car garage. The comparables have the same assessment neighborhood code as the subject property. These properties have improvement assessments ranging from \$49,605 to \$56,750 or from \$19.77 to \$20.03 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$54,731.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$105,157. The subject property has an improvement assessment of \$73,907 or \$26.71 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables consisting of class 2-78 properties improved with two-story dwellings of frame construction that range in size from 2,640 to 2,872 square feet of living area. The homes are 10 or 13 years old. Each property has a full basement with a formal recreation room, central air conditioning, one or two fireplaces, 2½ or 3½ bathrooms, and a 2-car garage. The comparables have the same neighborhood code as the subject property and are in the same block or ¼ of a mile from the subject. Comparable #1 is located along the same street as the subject property. These properties have improvement assessments ranging from \$80,280 to \$90,000 or from \$29.79 to \$32.86 per square foot of living area. The board of review contends the building assessed value per square foot for the comparables are the same or higher than the subject, which supports the assessed value as equitable.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on nine equity comparables with the same classification code and neighborhood code as the subject property to support their respective positions. The Board finds the best evidence of assessment equity to be the board of review comparables that are overall more similar to the subject property in age and size than are the comparables submitted by the appellant. Additionally, the board of review indicated its comparables are in the same block or ¼ of mile from the subject while the appellant indicated "unknown" as to the proximity of his comparables to the subject, which detracts from the weight given the appellant's comparables. The Board further finds the board of review comparables are similar to the subject in features with the exception that two comparables each have one less bathroom than the subject and three comparables each have one more fireplace than the subject. The board of review comparables have improvement assessments that range from \$80,280 to \$90,000 or from \$29.79 to \$32.86 per square foot of living area. The comparable most like the subject in location, board

of review comparable #1, has an improvement assessment of \$83,750 or \$30.61 per square foot of living area. The subject's improvement assessment of \$73,907 or \$26.71 per square foot of living area falls below the range established by the best comparables in this record and is well supported by the comparable most like the subject in location. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
