

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Douglas Kortfelt
DOCKET NO.: 23-29462.001-R-1
PARCEL NO.: 14-29-114-016-0000

The parties of record before the Property Tax Appeal Board are Douglas Kortfelt, the appellant, by attorney Dora Cornelio of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$44,280
IMPR.: \$118,164
TOTAL: \$162,444

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame construction with 2,650 square feet of living area. The dwelling is approximately 1 year old. Features of the property include a full basement with finished area, central air conditioning, one fireplace and a two-car garage. The property has a 2,952 square foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables that have the same assessment neighborhood code as the subject. The comparables are class 2-78 properties improved with two-story dwellings of masonry exterior construction ranging in size from 2,720 to 2,770 square feet of living area. The dwellings are 16 or 24 years old. Each comparable has a

full basement with finished area, central air conditioning and a two-car garage. Four comparables each have from one to five fireplaces. The comparables have improvement assessments that range from \$84,023 to \$87,864 or from \$30.71 to \$31.72 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$81,964 or \$30.93 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$162,444. The subject property has an improvement assessment of \$118,164 or \$44.59 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on three equity comparables that are located approximately ¼ of a mile from the subject property, two of which have the same assessment neighborhood code as the subject. The comparables are class 2-78 properties improved with two-story dwellings of frame or masonry exterior construction ranging in size from 2,658 to 3,624 square feet of living area. The dwellings are 1 or 10 years old. Each comparable has a full basement with finished area, central air conditioning and either a two-car or a three-car garage. Two comparables each have one or three fireplaces. The comparables have improvement assessments that range from \$121,125 to \$180,000 or from \$45.57 to \$50.07 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables due to their considerably older dwelling ages when compared to the subject. The Board has given reduced weight to board of review comparable #2 due to its substantially larger dwelling size when compared to the subject.

The Board finds the best evidence of assessment equity to be board of review comparables #1 and #3, which are overall more similar to the subject in location, dwelling size, design, age and most features. These two comparables have improvement assessments of \$121,125 and \$141,647 or \$45.57 and \$50.07 per square foot of living area, respectively. The subject's improvement assessment of \$118,164 or \$44.59 per square foot of living area falls below the two best comparables in the record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
