

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Sian Du'Prey
DOCKET NO.: 23-29792.001-R-1
PARCEL NO.: 16-02-413-008-0000

The parties of record before the Property Tax Appeal Board are Sian Du'Prey, the appellant, by attorney Dora Cornelio of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,212
IMPR.: \$44,309
TOTAL: \$48,521

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story multi-family building of masonry exterior construction with 3,270 square feet of gross building area. The building is approximately 97 years old. Features of the property include a full basement, three bathrooms and a one-car garage. The property has a site with 3,510 square feet of land area and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.¹

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity

comparables that have the same assessment neighborhood code as the subject property.² The comparables are class 2-11 properties improved with two-story or three-story multi-family buildings of frame or masonry exterior construction ranging in size from 3,226 to 3,476 square feet of gross building area. The buildings range in age from 107 to 135 years old. The comparables each have a full basement with finished area and three or four bathrooms. Comparable #5 has central air conditioning and three comparables each have a two-car garage. The comparables have improvement assessments that range from \$29,005 to \$31,536 or from \$8.80 to \$9.51 per square foot of gross building area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$29,691 or \$9.08 per square foot of gross building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$48,521. The subject property has an improvement assessment of \$44,309 or \$13.55 per square foot of gross building area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code as the subject and are located within the same block or approximately ¼ of a mile from the subject, two of which are also along the same street as the subject property. The comparables are class 2-11 properties improved with two-story multi-family buildings of masonry exterior construction ranging in size from 2,774 to 3,721 square feet of gross building area. The buildings are from 100 to 113 years old. The comparables each have a full basement, two of which have finished area. Each comparable has two or three full bathrooms and a one-car or a two-car garage. The comparables have improvement assessments that range from \$49,957 to \$54,788 or from \$13.92 to \$19.19 per square foot of gross building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables due to differences from the subject in building age, garage amenity, or central air conditioning. Additionally, the appellant's comparable #3 is a dissimilar three-story design, when compared to the subject's two-story design. The Board has given reduced weight to board of review comparables #3 and #4 which differ from the subject in building size.

² The appellant submitted property characteristic printouts for the comparables depicting property classification codes of 2-11 for each property.

The Board finds the best evidence of assessment equity to be board of review comparables #1 and #2, which are similar to the subject in location, building size, story height, age and some features. These two comparables have improvement assessments of \$49,957 and \$54,788 or \$16.03 and \$16.75 per square foot of gross building area. The subject's improvement assessment of \$44,309 or \$13.55 per square foot of gross building area falls below the two best comparables in the record. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
