

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Lamont Williams
DOCKET NO.: 23-30824.001-R-1
PARCEL NO.: 32-11-211-008-0000

The parties of record before the Property Tax Appeal Board are Lamont Williams, the appellant(s); and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,064
IMPR.: \$18,794
TOTAL: \$21,858

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject consists of a 7,210 square foot parcel of land improved with a 46-year-old, multi-level, frame and masonry, single-family dwelling containing 1,188 square feet of building area. Amenities of the home include a partial finished basement and a two-car garage. The property is located in Glenwood, Bloom Township, Cook County and is classified as a class 2 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends inequity as the basis of the appeal. In support of this argument, the appellant submitted data on three suggested comparables. The comparables are described as multi-level, frame and masonry, single-family dwellings located within four blocks of the subject. Amenities include a partial basement, air conditioning, and a two-car garage. These three comparables also have a fireplace. They range: in age from 47 to 48 years; in size from 1,480 to 2,158 square feet of building area; and in improvement assessment from \$9.89 to \$10.12 per square foot of building area. The comparables have land sizes from 7,446 to 16,924 square

feet with land assessments of \$.43 per square foot. Although the appellant listed the subject's assessment on the grid as \$23,000 the appellant submitted the board of review level appeal decision that disclosed an assessment of \$21,858.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's assessment of \$21,858 with an improvement assessment of \$18,794 or \$15.82 per square foot of building area. The subject's land assessment is \$3,064 or \$.42 per square foot.

In support of the current assessment, the board of review submitted four suggested comparables. The comparables are described as multi-level, frame and masonry, single-family dwellings located within a quarter mile of the subject. Amenities include a partial, finished basement, air conditioning, and a two-car garage. One comparable has a fireplace. They range: in age from 48 to 49 years; in size from 1,115 to 1,116 square feet of building area; and in improvement assessment from \$16.81 to \$17.67 per square foot of building area. They ranged in land size from 7,630 to 7,747 square feet with land assessments of \$.42 per square foot.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b).

The Board finds the best evidence of assessment equity for the improvement to be the appellant's comparable #2 and the board of review's comparables. These comparables had improvement assessments ranging of \$10.00 to \$17.67 per square feet of building area. These comparables received the most weight due to their size compared to the subject. In comparison the subject's improvement assessment of \$16.78 per square foot of building area is within the range of the best comparables in this record. In addition, the Board finds all the land, including the subject is assessed equitably at \$.42 or \$.43 per square foot. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's improvements is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
