

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Byron Williams  
DOCKET NO.: 23-33181.001-R-1  
PARCEL NO.: 32-05-327-013-0000

The parties of record before the Property Tax Appeal Board are Byron Williams, the appellant, by attorney Andreas Mamalakis, of the Law Offices of Andreas Mamalakis in Kenosha; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$4,276  
**IMPR.:** \$16,648  
**TOTAL:** \$20,924

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 1-story dwelling of frame and masonry exterior construction with 1,248 square feet of living area. The dwelling is approximately 51 years old. Features include a full basement with finished area, central air conditioning, and a 2-car garage. The property has a 9,504 square foot site and is located in Homewood, Bloom Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located within the subject's assessment neighborhood and within 0.78 of a mile from the subject property. The comparables are improved with 1-story, class 2-03 dwellings of frame and masonry exterior construction ranging in size from 1,259 to 1,397 square feet of living

area. The dwellings range in age from 55 to 62 years old. Four comparables each have a slab foundation and one comparables has a full basement, for which basement finish, if any, was not disclosed. Each comparable has central air conditioning and a 1-car or a 2-car garage. The comparables have improvement assessments ranging from \$11,504 to \$14,326 or from \$8.40 to \$11.24 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$20,924. The subject property has an improvement assessment of \$16,648 or \$13.34 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four suggested equity comparables located within the subject's assessment neighborhood and ¼ of a mile from the subject property. The comparables are improved with 1-story, class 2-03 dwellings of frame and masonry exterior construction ranging in size from 1,248 to 1,376 square feet of living area. The dwellings range in age from 55 to 58 years old. Each comparable has a full or partial basement with finished area, central air conditioning, and from a 1-car to a 2-car garage. The comparables have improvement assessments ranging from \$20,355 to \$21,355 or from \$15.49 to \$17.10 per square foot of living area.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables for which basement finish was not disclosed or lack a basement foundation, in contrast to the subject's full basement with finished area.

The Board finds the best evidence of assessment equity to be the board of review comparables which are similar, if not identical, to the subject in location, design/class, age, and dwelling size with varying degrees of similarity in other features. The best comparables have improvement assessments ranging from \$20,355 to \$21,355 or from \$15.49 to \$17.10 per square foot of living area. The subject property's improvement assessment of \$16,648 or \$13.34 per square foot of living falls below the range established by the best comparables in this record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
