

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jay Heiferman
DOCKET NO.: 23-33712.001-R-1
PARCEL NO.: 29-31-411-012-0000

The parties of record before the Property Tax Appeal Board are Jay Heiferman, the appellant, by attorney George N. Reveliotis, of Reveliotis Law, P.C. in Park Ridge; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$2,760
IMPR.: \$18,835
TOTAL: \$21,595

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of frame exterior construction with 1,658 square feet of living area. The dwelling is approximately 96 years old. Features include a full basement and a 2-car garage. The property has a 6,900 square foot site and is located in Homewood, Thornton Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information, including property characteristic printouts which reported property details not disclosed by the appellant, on seven equity comparables located within the subject's assessment neighborhood. The comparables are improved with 1-story, class 2-03 dwellings of frame or frame and masonry exterior construction ranging in size from 1,357 to 1,752 square feet of living area. The homes range in age from 69

to 105 years old. Six comparables each have a full or partial basement, one of which has basement finish, and one comparable has a slab foundation. Two comparables each have central air conditioning. Four comparables each have a 1-car or a 2-car garage. The comparables have improvement assessments ranging from \$11,749 to \$17,058 or from \$8.26 to \$10.62 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$21,595. The subject property has an improvement assessment of \$18,835 or \$11.36 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four comparables located within the subject's assessment neighborhood. The comparables are improved with 1-story or 1.5-story, class 2-03 dwellings of frame, masonry, or frame and masonry exterior construction ranging in size from 1,218 to 1,590 square feet of living area. The homes range in age from 66 to 95 years old. Each comparable has a full or partial basement and from a 1-car to a 2.5-car garage. One comparable has central air conditioning. The comparables have improvement assessments ranging from \$16,240 to \$23,240 or from \$12.60 to \$14.93 per square foot of living area.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted 11 suggested equity comparables for the Board's consideration with the same assessment neighborhood and classification codes as the subject property. However, the parties' comparables have varying degrees of similarity to the subject in property characteristics, and the Board finds none of the parties' comparables are truly similar to the subject and would require appropriate adjustments for differences, when compared to the subject, to make them more equivalent to the subject. These parties' comparables have improvement assessments ranging from \$11,749 to \$23,240 or from \$8.26 to \$14.93 per square foot of living area. The subject's improvement assessment of \$18,835 or \$11.36 per square foot of living area falls within the range established by the comparables in this record. Based on this record and after considering adjustments to the comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
