

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ivo Peric  
DOCKET NO.: 23-36051.001-R-1  
PARCEL NO.: 12-26-201-064-0000

The parties of record before the Property Tax Appeal Board are Ivo Peric, the appellant, by Brian S. Maher, attorney-at-law of Weis, DuBrock, Doody & Maher in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$6,431  
**IMPR.:** \$56,568  
**TOTAL:** \$62,999

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property is improved with a two-story multi-family building of masonry exterior construction that contains 4,914 square feet of building area. The building is approximately 56 years old. Features of the property include a full basement finished with apartment area, and six bathrooms. The property has a 6,125 square foot site located in River Grove, Leyden Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends inequity regarding the improvement assessment as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables consisting of class 2-11 properties improved with two-story multi-family buildings of masonry exterior construction that range in size from 4,200 to 4,272 square feet of building area. The buildings are 57 or 58 years old. Each property has a full basement, and three

comparables have a 2-car garage. Three comparables have three full bathrooms along with two half bathrooms, and one comparable has six bathrooms. These properties have the same assessment neighborhood code as the subject property. Their improvement assessments range from \$37,406 to \$39,488 or from \$8.76 to \$9.27 per square foot of building area. The appellant requested the subject's improvement assessment be reduced to \$44,619.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$62,999. The subject property has an improvement assessment of \$56,568 or \$11.51 per square foot of building area. In support of its contention of the correct assessment the board of review submitted information on three equity comparables composed of class 2-11 properties improved with two-story multi-family buildings of masonry exterior construction that range in size from 4,200 to 4,915 square feet of building area. The buildings are 53 or 55 years old. Each property has a full basement finished with apartment area, and six bathrooms. Comparable #3 has a 1-car garage. These properties have the same assessment neighborhood code as the subject property and are located in the same block or ¼ of a mile from the subject property. Comparables #1 and #2 are located along the same street as the subject property. The comparables have improvement assessments ranging from \$51,198 to \$57,568 or from \$11.52 to \$12.19 per square foot of building area.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on seven assessment equity comparables with the same classification code and neighborhood code as the subject property to support their respective positions. The Board finds the best evidence of assessment equity to be board of review comparables #1 and #2 that are most similar to the subject in location, size, and features. These comparables have improvement assessments of \$56,597 and \$57,568 or \$11.52 and \$11.71 per square foot of building area, respectively. The subject's improvement assessment of \$56,568 or \$11.51 per square foot of building area falls below the two best comparables in this record. Less weight is given the remaining comparables submitted by the parties due to differences from the subject property in size being from approximately 13% to 14.5% smaller than the subject building. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
