

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Cory Loxtercamp
DOCKET NO.: 23-36716.001-R-1
PARCEL NO.: 28-30-209-015-0000

The parties of record before the Property Tax Appeal Board are Cory Loxtercamp, the appellant, by Amy C. Floyd, Attorney at Law in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,591
IMPR.: \$23,409
TOTAL: \$27,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story dwelling of frame exterior construction with 1,658 square feet of living area.¹ The dwelling is approximately 74 years old. The property features a full basement with finished area and a 2-car garage. The property has a 7,980 square foot site and is located in Tinley Park, Bremen Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity

¹ The parties differ as to the description to the story height of the subject dwelling. The Board finds the best evidence of story height is found in the evidence provided by the board of review, which was not refuted by the appellant. Furthermore, the parties both submitted exterior photographs of the subject dwelling depicting a 1.5-story design. Additionally, the board of review disclosed the subject's basement is finished with a formal recreation room, which was not reported by nor was it refuted by the appellant.

comparables that have the same assessment neighborhood code as the subject. The comparables are class 2-03 properties improved with 1-story dwellings of frame or frame and masonry exterior construction ranging in size from 1,418 to 1,796 square feet of living area. The dwellings range in age from 73 to 81 years old. One comparable has a full basement, one comparable has a slab foundation and two comparables each have a crawl space foundation. Comparable #4 has central air conditioning and a fireplace. Each comparable has either a 1-car or a 2-car garage. The comparables have improvement assessments that range from \$14,306 to \$15,799 or from \$8.80 to \$10.44 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$15,519 or \$9.21 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$27,000. The subject property has an improvement assessment of \$23,409 or \$13.89 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code as the subject and are located within the same block as the subject property or within ¼ of a mile from the subject. The comparables are class 2-03 properties improved with 1.5-story dwellings of frame exterior construction ranging in size from 1,474 to 1,558 square feet of living area. The dwellings range in age from 71 to 74 years old. The comparables each have a full basement and either a 1.5-car, a 2-car or a 2.5-car garage. Two comparables have central air conditioning. The comparables have improvement assessments ranging from \$21,672 to \$23,058 or from \$13.91 to \$15.20 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables due to their dissimilar 1-story designs when compared to the subject's 1.5-story design and/or they lack a basement foundation, a feature of the subject.

The Board finds the best evidence of assessment equity to be the four comparables submitted by the board of review, which are overall more similar to the subject in location, dwelling size, story height, foundation and age. However, the Board finds two comparables have central air conditioning, unlike the subject and all four comparables have varying degrees of similarity to the subject in other features, suggesting adjustments would be required to make the comparables

more equivalent to the subject. Nevertheless, the comparables have improvement assessments ranging from \$21,672 to \$23,058 or from \$13.91 to \$15.20 per square foot of living area. The subject's improvement assessment of \$23,409 or \$13.89 per square foot of living area falls within the range established by the best comparables in the record in terms of total improvement assessment but slightly below the range on a per square foot of living area basis. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
