

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John Brown
DOCKET NO.: 23-38799.001-R-1
PARCEL NO.: 14-33-100-020-0000

The parties of record before the Property Tax Appeal Board are John Brown, the appellant, by attorney Dora Cornelio, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$39,062
IMPR.: \$98,881
TOTAL: \$137,943

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 3-story apartment building of masonry exterior construction with 5,150 square feet of gross building area. The building is approximately 126 years old and features a full basement and a 3-car garage. The property has a 3,125 square foot site and is located in Chicago, North Chicago Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables located within the subject's assessment neighborhood. The comparables consist of 3-story class 2-11 buildings of masonry exterior construction ranging in size from 4,884 to 5,376 square feet of gross building area. The buildings range in age from 119 to 149 years old. Each building has a full basement. The comparables have improvement assessments ranging from

\$66,236 to \$85,313 or from \$13.56 to \$15.93 per square foot of gross building area. Based on this evidence, the appellant requested a reduced improvement assessment of \$81,164 or \$15.76 per square foot of gross building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$137,943. The subject property has an improvement assessment of \$98,881 or \$19.20 per square foot of gross building area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within the subject's assessment neighborhood and within .25 of a mile of the subject. The comparables consist of 3-story class 2-11 buildings of masonry exterior construction ranging in size from 3,975 to 5,385 square feet of gross building area. The buildings are 128 to 142 years old. Three buildings have central air conditioning, one comparable has a fireplace, and three comparables each have a 2-car or 2.5-car garage. Three comparables each have a full basement and one comparable has a concrete slab foundation. The comparables have improvement assessments ranging from \$80,017 to \$572,500 or from \$20.13 to \$127.22 per square foot of gross building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill. Admin. Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity, and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill. Admin. Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of nine equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to the comparables submitted by the appellant, each of which lacks a garage, a feature of the subject. The Board also gives less weight to the board of review's comparable #3, which differs from the subject in building size, and comparable #4, which differs from the subject in foundation, lacks a garage, and appears to be an outlier based on its much higher assessment relative to the other comparables in the record. The Board finds the board of review's two remaining comparables are similar to the subject in age, building size, and most features. These comparables have improvement assessments of \$111,550 and \$113,139 or \$21.01 and \$22.13 per square foot of gross building area. The subject's improvement assessment of \$98,881 or \$19.20 per square foot of gross building area falls below the two best comparables in this record. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
