

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: George Raiman
DOCKET NO.: 23-39082.001-R-1
PARCEL NO.: 13-16-115-047-0000

The parties of record before the Property Tax Appeal Board are George Raiman, the appellant, by attorney Jeremy Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$27,210
IMPR.: \$48,803
TOTAL: \$76,013

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story building of masonry exterior construction with 5,276 square feet of gross building area. The building is approximately 96 years old. Features of the building include a basement with finished area and 4-car garage. The property has an approximately 9,718 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted four equity comparables that are located in the same assessment neighborhood code as the subject. The comparables are improved with class 2-11, 2-to-6-unit buildings of masonry exterior construction that range in size from 4,630 to 6,458 square feet of gross building area. The buildings range in age from 72 to 112 years old. Each comparable has a basement, three with finished area. Two comparables each have either a 2-car or a 3-car garage. The comparables have improvement assessments that range

from \$42,200 to \$54,500 or from \$8.39 to \$9.11 per square foot of gross building area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$45,637 or \$8.65 per square foot of gross building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$90,035. The subject property has an improvement assessment of \$62,825 or \$11.91 per square foot of gross building area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same assessment neighborhood code as the subject. The comparables are improved with class 2-11, 2-story or 3-story buildings of masonry exterior construction that range in size from 4,118 to 4,539 square feet of gross building area. The buildings range in age from 91 to 97 years old. Each comparable has a basement, one with finished area and either a 1-car or 2-car garage. The comparables have improvement assessments that range from \$38,050 to \$43,700 or from \$8.49 to \$10.61 per square foot of gross building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The record contains eight suggested equity comparables for the Board's consideration. The Board has given less weight to appellant's comparables #2 and #3 along with board of review comparables #2, #3 and #4 which are less similar to the subject in building size, age and/or design when compared to the subject.

The Board finds the best evidence of assessment equity to be appellant's comparables #1 and #4 along with board of review comparable #1, which are overall more similar to the subject in location, dwelling size, design and age. However, these three comparables have other features with varying degrees of similarity when compared to the subject, suggesting adjustments would be required to make them more equivalent to the subject. The comparables have improvement assessments ranging from \$42,200 to \$46,934 or from \$8.39 to \$9.38 per square foot of gross building area. The subject's improvement assessment of \$62,825 or \$11.91 per square foot of gross building area is greater than the comparables in this record. After considering adjustments to the best comparables for differences from the subject, the Board finds the subject's assessment is excessive. Therefore, based on this record the Board finds a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
