

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Piotr Jezierski  
DOCKET NO.: 23-39195.001-R-1  
PARCEL NO.: 28-18-408-009-0000

The parties of record before the Property Tax Appeal Board are Piotr Jezierski, the appellant, by attorney George N. Reveliotis, of Reveliotis Law, P.C. in Park Ridge; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$1,698  
**IMPR.:** \$57,159  
**TOTAL:** \$58,857

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 3-story, multi-family building of masonry exterior construction with 6,525 square feet of gross building area. The building is approximately 45 years old. Features include a slab foundation. The property has a 2,954 square foot site and is located in Oak Forest, Bremen Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on seven equity comparables located within the subject's assessment neighborhood code and on the same block as the subject property. The comparables are improved with three-story or higher, class 2-11 multi-family buildings of masonry exterior construction with each having 6,525 square feet of gross building area. The buildings are either 44 or 45 years old. Each comparable has a slab or

crawl space foundation. The comparables have improvement assessments ranging from \$57,107 to \$57,160 and of either \$8.75 or \$8.76 per square foot of gross building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$59,999. The subject property has an improvement assessment of \$58,301 or \$8.94 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four comparables located within the subject's assessment neighborhood code and on the same block as the subject property. Comparables #1, #2, and #4 are the same properties as the appellant's comparables #4, #3, and #2, respectively. The comparables are improved with 3-story, class 2-11 multi-family buildings of masonry exterior construction with each having 6,525 square feet of gross building area. The buildings are either 44 or 45 years old. Each comparable has a slab or crawl space foundation. The comparables have improvement assessments ranging from \$57,131 to \$58,131 and of either \$8.76 or \$8.91 per square foot of gross building area. The board of review asserted the comparables found "support a very minor reduction" in the assessed value which is "consistent" with the comparables submitted by the appellant's attorney.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted eight suggested equity comparables for the Board's consideration, three of which are common to both parties. The Board finds the parties' comparables are identical or nearly identical to the subject in location, design/class, age, dwelling size, and features. These comparables have improvement assessments ranging from \$57,107 to \$58,131 or from \$8.75 to \$8.91 per square foot of gross building area. The subject's improvement assessment of \$58,301 or \$8.94 per square foot of gross building area falls above the range established by the comparables in this record and appears to be excessive. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment, commensurate with the appellant's request which was confirmed by the board of review, is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
