

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Malgorzata Rydzowska - Biernat
DOCKET NO.: 23-40059.001-R-1
PARCEL NO.: 19-31-415-025-0000

The parties of record before the Property Tax Appeal Board are Malgorzata Rydzowska - Biernat, the appellant(s), by attorney George N. Reveliotis, of Reveliotis Law, P.C. in Park Ridge; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,951
IMPR.: \$27,553
TOTAL: \$31,504

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a split-level single-family dwelling of frame and masonry construction with 1,524 square feet of living area. The dwelling was 11 years old. Features of the home include a partial basement, central air conditioning, two fireplaces and a two-car garage. The property has a 6,321 square foot site and is located in Burbank, Stickney Township, Cook County. The subject is classified as a class 2-34 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on eight class 2-34 equity comparable properties with varying degrees of similarities to the subject which are located within a 0.18-mile radius of the subject. The improvements ranged: in age from 27 to 67 years; in size from 1,230 to 1,830 square feet of living area; and in improvement assessment from \$12.85 to \$17.37 per square foot

of living area. Appellant disclosed that this is an owner-occupied residence. Based on this evidence the appellant is seeking a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$31,504. The subject property has an improvement assessment of \$27,554 or \$18.08 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four class 2-34 equity comparable properties with varying degrees of similarities to the subject which are located within the same subarea as the subject including one on the same block as the subject. The improvements ranged: in age from 12 to 21 years; in size from 1,524 to 1,756 square feet of living area; and in improvement assessment from \$20.41 to \$23.02 per square foot of living area. Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted twelve equity comparable properties for the Board's consideration in determining assessment equity. The Board finds the best evidence of assessment equity to be appellant's comparables #1, #4, and #5 and board of review's comparables #1, #2, #3, and #4. Appellant's comparables #1, #4, and #5 were similar to the subject in size, partial basement, and central air conditioning. Two of these comparables were similar in age to the subject while the other was older. One of these comparables had the same number of bathrooms as the subject while the others had one full or one half-bathroom fewer than the subject. Two of these comparables had two-car garages like the subject while the other had a 2.5-car garage. Board of review's comparables #1, #2, #3, and #4 were similar to the subject in age, size, partial basement, central air conditioning, and two-car garage. Two of these comparables had the same number of bathrooms as the subject while the others had one half bathroom more or less than the subject. These comparable properties were similar to the subject and had improvement assessments that ranged from \$14.79 to \$23.02 per square foot of living area. The subject's improvement assessment of \$18.08 per square foot of living area falls within the range established by the best comparable properties in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
