

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jenna O'Neil
DOCKET NO.: 23-40706.001-R-1
PARCEL NO.: 28-18-208-016-0000

The parties of record before the Property Tax Appeal Board are Jenna O'Neil, the appellant, by attorney Andreas Mamalakis, of the Law Offices of Andreas Mamalakis in Kenosha; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,797
IMPR.: \$20,203
TOTAL: \$26,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of frame and masonry exterior construction with 1,694 square feet of living area. The dwelling is approximately 53 years old. Features include a slab foundation, central air conditioning, and a 2-car garage. The property has a 10,082 square foot site and is located in Oak Forest, Bremen Township, Cook County. The subject is classified as a class 2-07 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located within the subject's assessment neighborhood. The comparables are improved with 2-story, class 2-07 dwellings of frame and masonry exterior construction with either 1,632 or 1,946 square feet of living area. The homes are either 54 or 58 years old. Each

comparable slab foundation and a 1-car garage. Three comparables each have central air conditioning. The comparables have improvement assessments ranging from \$17,736 to \$21,205 or from \$10.87 to \$11.67 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$19,176 to \$11.32 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$31,999. The subject property has an improvement assessment of \$26,202 or \$15.47 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on three equity comparables located within the subject's assessment neighborhood. The comparables are improved with 2-story, class 2-07 dwellings of frame and masonry exterior construction with either 1,694 or 1,757 square feet of living area. The homes are either 52 or 54 years old. Each comparable has a partial basement with finished area and a 2-car garage. One comparable has central air conditioning. The comparables have improvement assessments ranging from \$27,407 to \$28,572 or from \$15.60 to \$16.87 per square foot of living area. The board of review asserts the assessed values per square foot for the submitted comparables support the subject's assessed value as equitable.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #2 and #3, as well as the board of review comparables, due to differences when compared to the subject in dwelling size, foundation type, and /or central air conditioning amenity.

The Board finds the best evidence of assessment equity to be the appellant's comparables #1, #5, and #6 which are overall more similar to the subject in location, design/class, age, dwelling size, foundation type, and other features. The best comparables have improvement assessments ranging from \$17,736 to \$19,048 or from \$10.87 to \$11.67 per square foot of living area. The subject's improvement assessment of \$26,202 or \$15.47 per square foot of living area falls above the range established by the best comparables in this record and appears to be excessive. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
