

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: H William Schmidt  
DOCKET NO.: 23-41374.001-R-1  
PARCEL NO.: 14-07-115-021-0000

The parties of record before the Property Tax Appeal Board are H William Schmidt, the appellant(s), by attorney Andreas Mamalakis, of the Law Offices of Andreas Mamalakis in Kenosha; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$25,000  
**IMPR.:** \$39,541  
**TOTAL:** \$64,541

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of frame exterior construction with 1,997 square feet of living area. The property is approximately 119 years old and has a full basement and a two-car garage. The property has a 3,125 square foot site and is located in Chicago, Lakeview Township, Cook County. The subject is classified as a class 2-05 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant asserts assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables with varying degrees of similarity to the subject property. The suggested comparable properties range in size from 1,772 to 2,032 square feet of living area and range in age from 117 to 125 years old. The appellant's comparables had frame constructions. The appellant reported that the suggested comparables were located within .30 miles of the subject property. The comparables have improvement

assessments ranging from \$9.81 to \$14.42 per square foot of living area. The appellant submitted a board of review decision letter indicating the total assessment for the subject property was \$64,541. Based on this evidence, the appellant requested a reduction in the subject's total assessment to \$50,102.

The board of review submitted its "Board of Review Notes on Appeal" indicating the total assessment for the subject as \$64,541. The subject property has an improvement assessment of \$39,541 or \$19.80 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables with varying degrees of similarity to the subject property. The suggested comparable properties ranged in size from 1,828 to 2,173 square feet of living area. Each suggested comparable had a frame construction. The board of review reported that each of the suggested comparables was located within a quarter mile of the subject property and ranged in age from 115 to 123 years old. The comparables have improvement assessments ranging from \$20.87 to \$22.98 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds that the best evidence of assessment equity is the board of review's suggested comparable #1, #3 and #4 and the appellant's suggested comparables #2, #4 and #5. Like the subject property, each of these comparables has a two-story, single-family dwelling of frame construction with full basement. The dwellings on these comparables are similar to the subject dwelling in age and living area size. These comparables are all in the same neighborhood as the subject and are within a quarter mile of the subject property. The best comparables have improvement assessments that range from \$12.09 to \$22.98 per square foot of living area. The subject's improvement assessment of \$19.80 per square foot of living area is within the range established by the best comparables in this record. The Board therefore finds that the appellant did not demonstrate with clear and convincing evidence that the subject was inequitably assessed, and a reduction in the subject's assessment on this basis is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
