

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mitich Nickolas
DOCKET NO.: 23-41399.001-R-1
PARCEL NO.: 26-17-329-047-0000

The parties of record before the Property Tax Appeal Board are Mitich Nickolas, the appellant, by attorney Brian P. Liston, of the Law Offices of Liston & Tsantilis, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds ***a reduction*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,340
IMPR.: \$7,613
TOTAL: \$11,953

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story dwelling of frame and masonry exterior construction with 1,298 square feet of living area. The dwelling is approximately 74 years old and features a full basement, 1.5 baths and a 2-car garage. The property has a 4,340 square foot site and is located in Chicago, Hyde Park Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on six equity comparables with the same assessment neighborhood code as the subject. The comparables are class 2-03 properties improved with 1.5-story dwellings of masonry or frame and masonry exterior construction ranging in size from 1,273 to 1,310 square feet of living area. The dwellings are 74 to 79 years old and have full basements. Two comparables have central air

conditioning and one comparable has a fireplace. The comparables each have 1 full bath and a 2-car or a 2.5-car garage. Three comparables each have a half bath. The comparables have improvement assessments ranging from \$7,625 to \$7688 or from \$5.86 to \$6.02 per square foot of living area. Based on this evidence the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$13,000. The subject property has an improvement assessment of \$8,660 or \$6.67 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables with the same assessment neighborhood code. The comparables are class 2-03 properties improved with 1.5-story dwellings of frame and masonry exterior construction ranging in size from 1,109 to 1,451 square feet of living area. The homes are 71 to 73 years old and have full basements. Each comparable has 1 or 2 full baths and three comparables each have 1 or 2 half baths. Three comparables have central air conditioning and three comparables each have a 2-car garage. The comparables have improvement assessments ranging from \$8,348 to \$13,660 or from \$6.77 to \$9.41 per square foot of living area. Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The record contains ten suggested comparables for the Board's consideration with the same neighborhood code and property classification code as the subject. The Board gives less weight to appellant's comparables #4, #5 and #6 as well as the board of review comparables which have central air conditioning unlike the subject and/or are less similar to the subject in dwelling size and/or bathroom count.

The Board finds the best evidence of equity to be appellant's comparables #1, #2, and #3 which overall are more similar to the subject in age, dwelling size and features. These comparables each have an improvement assessment \$7,625 or \$5.86 per square foot of living area. The subject's improvement assessment of \$8,660 or \$6.67 per square foot of living area falls above the range established by the best comparables in this record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment commensurate with the appellant's request is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
