

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Matthew J Belcher
DOCKET NO.: 23-41427.001-R-1
PARCEL NO.: 14-19-125-005-0000

The parties of record before the Property Tax Appeal Board are Matthew J Belcher, the appellant(s), by attorney Andreas Mamalakis, of the Law Offices of Andreas Mamalakis in Kenosha; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$46,500
IMPR.: \$111,889
TOTAL: \$158,389

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story, single-family dwelling of masonry exterior construction with 3,336 square feet of living area. The home is approximately 8 years old. The property has a 3,720 square foot site and is located in Chicago, Lakeview Township, Cook County. Features of the home include a full basement with finished area,¹ central air conditioning, two fireplaces, and a 3-car garage. The subject is classified as a Class 2-78 property under the Cook County Real Property Assessment Classification Ordinance. The record reflects that the subject property is owner-occupied.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables

¹ The board of review disclosed the subject's basement is finished with a formal recreation room, which was neither reported by appellant or refuted by appellant.

with varying degrees of similarity to the subject. The appellant reported that the suggested comparables were located between 0.30 and 0.70 miles away from subject property. The suggested comparable properties ranged in size from 2,689 to 3,710 square feet of living area. Each suggested comparable property had the same neighborhood code as the subject property, had one fireplace, and had a 2-car garage. Each comparable had a full basement with undisclosed level of basement finish. Three of the comparables had central air conditioning. The comparables ranged in age from 17 to 24 years old. The comparables had improvement assessments ranging from \$18.08 to \$22.41 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's assessment to \$116,089.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$158,389. The subject property has an improvement assessment of \$111,889 or \$33.54 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the subject's assessment neighborhood and within a quarter of a mile from the subject. The suggested comparable properties ranged in size from 3,168 to 3,248 square feet of living area. Each of the comparables had two fireplaces, a full basement with finished area, central air conditioning, and either a 2.5-car or 3-car garage. The comparables ranged in age from 5 to 7 years old. The comparables had improvement assessments ranging from \$35.03 to \$45.84 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The taxpayer asserts assessment inequity as the basis of the appeal. The Illinois Constitution requires that real estate taxes, "be levied uniformly by valuation ascertained as the General Assembly shall provide by law." Ill. Const. art. IX, §4 (1970); Walsh v. Property Tax Appeal Board, 181 Ill. 2d 228, 234 (1998). This uniformity provision of the Illinois Constitution does not require absolute equality in taxation, however, and it is sufficient if the taxing authority achieves a reasonable degree of uniformity. Peacock v. Property Tax Appeal Board, 339 Ill. App. 3d 1060, 1070 (4th Dist. 2003).

When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by the appellant by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e); Walsh, 181 Ill. 2d at 234 (1998). Clear and convincing evidence means more than a preponderance of the evidence, but it does not need to approach the degree of proof needed for a conviction of a crime. Bazyldo v. Volant, 164 Ill. 2d 207, 213 (1995). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity, and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant failed to meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board accords diminished weight to the appellant's comparables which are less similar to the subject

property in distance from the subject property, improvement size, number of fireplaces, age, garage size, and included incomplete information regarding the finish of basements.

The Board finds the best evidence of assessment equity to be the board of review comparables, which are located most proximate to the subject property. These comparables are most similar in size of improvement, age of improvement, and size of garage. These comparables are identical regarding number of fireplaces, full basements with finished areas, and central air conditioning.

The best evidence comparables ranged in improvement assessment of \$35.03 to \$45.84 per square foot of living area. The subject's improvement assessment of \$33.54 per square foot of living area falls below the range established by the best comparables in this record. After considering adjustments to these comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is supported. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
