

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Lewandowski Robert TR LEW-5731
DOCKET NO.: 23-42004.001-R-1
PARCEL NO.: 13-20-214-009-0000

The parties of record before the Property Tax Appeal Board are Lewandowski Robert TR LEW-5731, the appellant, by attorney Brian P. Liston, of the Law Offices of Liston & Tsantilis, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$13,776
IMPR.: \$16,224
TOTAL: \$30,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of frame exterior construction with 1,204 square feet of living area. The dwelling is approximately 108 years old. Features include a full basement and a 1.5-car garage. The property has a 4,920 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables located within the subject's assessment neighborhood and either 1.2 or 1.4 miles from the subject property. The comparables are improved with 1.5-story, class 2-03 dwellings of frame exterior construction ranging in size from 1,267 to 1,449 square feet of living area. The dwellings range in age from 102 to 107 years old. Each comparable has a full basement and a

1.5-car or a 2-car garage. One comparable has central air conditioning. The comparables have improvement assessments ranging from \$10,611 to \$12,259 or from \$8.37 to \$8.46 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$30,000. The subject property has an improvement assessment of \$16,224 or \$13.48 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four suggested equity comparables located within the subject's assessment neighborhood and one the same block or ¼ of a mile from the subject property. Three of these comparables are also along the same street as the subject. The comparables are improved with 1-story or 1.5-story, class 2-03 dwellings of frame or masonry exterior construction ranging in size from 1,000 to 1,523 square feet of living area. The dwellings range in age from 63 to 113 years old. Three comparables each have a full or partial basement and a slab foundation. Three comparables each have central air conditioning. Each comparable has from a 1-car to a 2-car garage. The comparables have improvement assessments ranging from \$16,429 to \$25,390 or ranging from \$13.66 to \$20.73 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be sustained.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables, as well as board of review comparables #1 and #4, due to substantial differences when compared to the subject in location, age, dwelling size, and/or foundation type.

The Board finds the best evidence of assessment equity to be the board of review comparables #2 and #3 which are similar to the subject in location, design/class, age, and dwelling size with varying degrees of similarity in other features. The best comparables have improvement assessments of \$16,429 and \$25,390 or \$13.66 and \$20.25 per square foot of living area. The subject property's improvement assessment of \$16,224 or \$13.48 per square foot of living area falls below the two best comparables in this record. After considering adjustments to the two best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
