

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Martin Sorice
DOCKET NO.: 23-42110.001-R-1
PARCEL NO.: 15-12-433-048-0000

The parties of record before the Property Tax Appeal Board are Martin Sorice, the appellant, by attorney Dora Cornelio, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,087
IMPR.: \$64,057
TOTAL: \$67,144

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story mixed-use building of masonry exterior construction with 4,377 square feet of gross building area. The dwelling is approximately 115 years old. Features of the home include a basement, and a 2½-car garage. The property has an approximately 3,087 square foot site and is located in Forest Park, Proviso Township, Cook County. The subject is classified as a class 2-12 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with 2-story class 2-12 mixed-use buildings with frame and masonry or masonry exterior construction ranging in size from 3,504 to 5,160 square feet of gross

building area. The buildings range in age from 80 to 120 years old. Four comparables have a basement, one with finished area and one comparable has a slab foundation. Three comparables have a 1-car or a 2-car garage. The comparables have improvement assessments ranging from \$44,400 to \$58,400 or from \$10.10 to \$12.67 per square foot of gross building area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$49,547 or \$11.32 per square foot of gross building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$67,144. The subject property has an improvement assessment of \$64,057 or \$14.63 per square foot of gross building area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with 2-story class 2-12 mixed-use buildings of masonry exterior construction ranging in size from 3,522 to 4,275 square feet of gross building area. The properties range in age from 114 to 130 years old. Each comparable has a basement. Two comparables have central air conditioning. Two comparables have a 1½-car or a 3-car garage. The comparables have improvement assessments ranging from \$61,293 to \$84,875 or from \$14.64 to \$24.10 per square foot of gross building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #1, #3, #4 and #5 and board of review comparables #3 and #4 which are less similar to the subject in building size, age and/or foundation type.

The Board finds the best evidence of assessment equity to be the appellant's comparable #2 and board of review comparables #1 and #2 which are more similar to the subject in building size and have varying degrees of similar location, age and other features. These comparables have improvement assessments ranging from \$51,257 to \$62,875 or from \$11.30 to \$14.71 per square foot of gross building area. The subject's improvement assessment of \$64,057 or \$14.63 per square foot of gross building area falls above the range on an overall improvement assessment basis and within the range on a per square foot basis. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
