

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Nick Christy
DOCKET NO.: 23-42428.001-R-1
PARCEL NO.: 26-08-329-036-0000

The parties of record before the Property Tax Appeal Board are Nick Christy, the appellant, by attorney Brian P. Liston, of the Law Offices of Liston & Tsantilis, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,050
IMPR.: \$4,590
TOTAL: \$7,640

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story mixed-use building of masonry exterior construction with 2,700 square feet of gross building area and is approximately 104 years old. Features of the property include a full basement and central air conditioning. The property has a 3,050 square foot site and is located in Chicago, Hyde Park Township, Cook County. The subject is classified as a class 2-12 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables with the same assessment neighborhood code as the subject property. The comparables are class 2-12 properties improved with 2-story mixed-use buildings of frame or masonry exterior construction ranging in size from 2,535 to 2,866 square feet of gross building

area and ranging in age from approximately 94 to 157 years old. The comparables have partial or full basements. Two comparables have central air conditioning and two comparables have either a 1.5-car or a 2-car garage. The comparables have improvement assessments that range from \$3,875 to \$5,160 or from \$1.42 to \$1.80 per square foot of gross building area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$8,882. The subject property has an improvement assessment of \$5,832 or \$2.16 per square foot of gross building area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables with the same neighborhood code as the subject. The comparables are class 2-11 or class 2-12 properties improved with 1-story or 2-story mixed-use buildings of frame or masonry construction ranging in size from 1,302 to 3,808 square feet of gross building area and ranging in age from 96 to 128 years old. Three comparables have partial or full basements and one comparables has a slab foundation. Two comparables have central air conditioning and three comparables each have a 2-car garage. The comparables have improvement assessments ranging from \$5,450 to \$18,582 or from \$2.78 to \$4.88 per square foot of gross building area.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted a total of eight equity comparables in support of their positions before the Property Tax Appeal Board. The Board gave less weight to the board of review comparables which are less similar to the subject in building size.

The Board finds the best evidence of assessment equity to be the appellant's comparables which are more similar to the subject in building size but have varying degrees of similarity in age and features. These comparables have improvement assessments ranging from \$3,875 to \$5,160 or from \$1.42 to \$1.80 per square foot of gross building area. The subject's improvement assessment of \$5,832 or \$2.16 per square foot of gross building area falls above the range established by the best comparables in the record. After considering adjustments to the best comparables for any differences from the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement is inequitably assessed and a reduction in the subject's improvement assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
