

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Joseph M. Haugh
DOCKET NO.: 23-42536.001-R-1
PARCEL NO.: 13-35-118-003-0000

The parties of record before the Property Tax Appeal Board are Joseph M. Haugh, the appellant, by Brian P. Liston, attorney-at-law of the Law Offices of Liston & Tsantilis, P.C. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$11,253
IMPR.: \$28,750
TOTAL: \$40,003

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a two-story multi-family building of masonry exterior construction containing 2,564 square feet of building area. The building is approximately 110 years old. Features of the property include two units, a full basement and two bathrooms. The property has a 3,750 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-11 apartment building under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends inequity regarding the improvement assessment as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables consisting of class 2-11 properties improved with two-story buildings of masonry exterior construction that range in size from 2,730 to 2,864 square feet of building area. The buildings range in age from 97 to 110 years old. Each property has two units, a full basement, 2

or 2½ bathrooms, and a 1.5-car or 2-car garage. The comparables have the same assessment neighborhood code as the subject property and are located approximately 1 mile from the subject. These properties have improvement assessments ranging from \$23,502 to \$24,768 or from \$8.60 to \$8.70 per square foot of building area. The appellant requested the subject's improvement assessment be reduced to \$22,179.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$40,003. The subject property has an improvement assessment of \$28,750 or \$11.21 per square foot of building area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables consisting of class 2-11 properties improved with two-story buildings of masonry exterior construction that range in size from 2,410 to 2,606 square feet of building area. The buildings are from 108 to 112 years old. Each property has a full unfinished basement and two bathrooms. The comparables have the same assessment neighborhood code as the subject and are located ¼ of a mile from the subject property. Comparables #1, #2 and #4 are located along the same street as the subject property. The comparables have improvement assessments ranging from \$28,342 to \$45,750 or from \$11.46 to \$18.98 per square foot of building area. The board of review contends the building assessed value per square foot for the comparables are the same or higher than the subject, which supports the assessed value as equitable.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on seven equity comparables with the same classification code and neighborhood code as the subject property to support their respective positions. The comparables are improved with buildings similar to the subject in exterior construction, style, age and size. The Board finds, however, the board of review comparables are more similar to the subject in location and features than the comparables provided by the appellant. The board of review comparables have improvement assessments that range from \$28,342 to \$45,750 or from \$11.46 to \$18.98 per square foot of building area. The subject's improvement assessment of \$28,750 or \$11.21 per square foot of building area falls within the range of the total improvement assessments but below the range on a per square foot basis as established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
