

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Agustin P. Alonso
DOCKET NO.: 23-42755.001-R-1
PARCEL NO.: 13-20-400-025-0000

The parties of record before the Property Tax Appeal Board are Agustin P. Alonso, the appellant, by attorney Brian S. Maher, of Weis, DuBrock, Doody & Maher in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$10,584
IMPR.: \$17,962
TOTAL: \$28,546

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of frame and masonry exterior construction with 1,104 square feet of living area. The dwelling is approximately 96 years old. Features include a slab foundation and a 2-car garage. The property has a 3,780 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located within the subject's assessment neighborhood. The comparables are improved with 1-story or 1.5-story, class 2-03 dwellings of masonry exterior construction ranging in size from 1,227 to 1,667 square feet of living area. The dwellings range in age from 73 to 97 years old. Three comparables each have a full basement and one comparable has a

crawl space foundation. Each comparable has a 1-car or a 2-car garage. The comparables have improvement assessments ranging from \$9,060 to \$13,945 or from \$6.09 to \$8.88 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$8,457.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$28,546. The subject property has an improvement assessment of \$17,962 or \$16.27 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four suggested equity comparables located within the subject's assessment neighborhood. The comparables are improved with 1-story, class 2-03 dwellings of frame and masonry exterior construction ranging in size from 1,000 to 1,080 square feet of living area. The dwellings range in range from 92 to 96 years old. Each comparable has a full basement and a 1.5-car or a 2-car garage. One comparable has central air conditioning. The comparables have improvement assessments ranging from \$18,416 to \$20,416 or ranging from \$17.05 to \$19.44 per square foot of living area. The board of review asserts the assessed values per square foot for the submitted comparables support the subject's assessed value as equitable.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables which present differences relative to the subject in design, age, and/or dwelling size.

The Board finds the best evidence of assessment equity to be the board of review comparables which are overall more similar to the subject in location, design/class, age, and dwelling size with varying degrees of similarity in foundation type and other features suggesting appropriate adjustments would be necessary to make them more equivalent to the subject. The best comparables have improvement assessments ranging from \$18,416 to \$20,416 or ranging from \$17.05 to \$19.44 per square foot of living area. The subject property's improvement assessment of \$17,962 or \$16.27 per square foot of living area falls below the range established by the best comparables in this record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
