

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jose Garcia
DOCKET NO.: 23-42779.001-R-1
PARCEL NO.: 26-20-110-024-0000

The parties of record before the Property Tax Appeal Board are Jose Garcia, the appellant, by attorney Brian P. Liston of the Law Offices of Liston & Tsantilis, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$6,000
IMPR.: \$18,000
TOTAL: \$24,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame and masonry exterior construction with 2,162 square feet of living area. The dwelling is approximately 36 years old.¹ The home features a partial basement that is finished with a formal recreation room, two full bathrooms, a fireplace and a two-car garage. The property has a 5,000 square foot site and is located in Chicago, Hyde Park Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on three equity

¹ The appellant provided the property characteristic printout for the subject revealing the subject dwelling is 36 years old. Additionally, the board of review disclosed the subject basement is finished with a formal recreation room, which was not refuted by the appellant.

comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located either .1 or .3 of a mile from the subject property. The comparables are improved with two-story dwellings of frame and masonry exterior construction ranging in size from 2,218 to 2,390 square feet of living area. The comparables each have a full or partial basement. No data was provided by the appellant concerning basement finish, if any, for the comparables. Each comparable has two or three full bathrooms, two comparables each have an additional half bathroom, two comparables have central air conditioning and two comparables each have one fireplace. Each comparable has a two-car garage. The comparables have improvement assessments that range from \$17,030 to \$17,833 or from \$7.35 to \$8.04 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$16,431 or \$7.60 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$24,000. The subject property has an improvement assessment of \$18,000 or \$8.33 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are located approximately ¼ of a mile from the subject property. The comparables are improved with two-story dwellings of frame and masonry exterior construction ranging in size from 2,023 to 2,065 square feet of living area. The dwellings are 27 or 28 years old. The comparables each have a partial basement, one of which is finished with a formal recreation room. Each comparable has one full bathroom, one additional half bathroom, central air conditioning, a fireplace and a two-car garage. The comparables have improvement assessments of \$17,357 or \$18,000 or from \$8.58 to \$8.84 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven comparable properties for the Board's consideration. The Board finds all the comparables are similar to the subject in location, dwelling size, design and age. However, the Board finds these seven comparables have varying degrees of similarity when compared to the subject in bathroom count, fireplace count, basement finish and garage amenity, suggesting adjustments would be required to make the comparables more equivalent to the subject. Nevertheless, the comparables have improvement assessments ranging from \$17,030 to \$18,000 or from \$7.35 to \$8.84 per square foot of living area. The subject's improvement

assessment of \$18,000 or \$8.33 per square foot of living area is equal to three of the seven comparables in the record in terms of total improvement assessment and falls within the range of the comparables on a per square foot basis. Based on this record and after considering adjustments to the comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
