

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Duncan Dinkha
DOCKET NO.: 23-42847.001-R-1
PARCEL NO.: 04-25-200-052-0000

The parties of record before the Property Tax Appeal Board are Duncan Dinkha, the appellant, by attorney Michael R. O'Malley, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$23,539
IMPR.: \$131,299
TOTAL: \$154,838

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of masonry exterior construction with 4,912 square feet of living area. The dwelling is approximately 12 years old. Features of the home include a basement with finished area, central air conditioning, 3 fireplaces and a 4-car garage. The property has a 16,814 square foot site and is located in Glenview, Northfield Township, Cook County. The subject is classified as a class 2-08 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located in the same assessment neighborhood as the subject. The comparables consist of class 2-08, 2-story dwellings of masonry or frame and masonry exterior construction ranging in size from 4,437 to 4,892 square feet of living area. The dwellings are from 20 to 44

years old. Each comparable has a basement, four of which have finished area, central air conditioning, from 1 to 3 fireplaces, and either a 3-car or a 3.5-car garage. The comparables have improvement assessments ranging from \$94,369 to \$102,249 or from \$20.66 to \$21.27 per square foot of living area. Based on this evidence, the appellant requested a reduced improvement assessment of \$103,152 or \$21.00 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$154,838. The subject property has an improvement assessment of \$131,299 or \$26.73 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the subject's assessment neighborhood and in the subject's block, subject's subarea or approximately 0.25 of a mile from the subject. The comparables consist of class 2-08, 2-story dwellings of frame or masonry exterior construction ranging in size from 4,708 to 4,879 square feet of living area. Each comparable has a basement, three of which have finished area, central air conditioning, 1 or 3 fireplaces, and a 3-car garage. The comparables have improvement assessments ranging from \$136,192 to \$173,560 or from \$29.01 to \$36.17 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of nine suggested equity comparables to support their respective positions before the Property Tax Appeal Board. The Board gives less weight to the appellant's comparables #1 and #4 and board of review's comparable #3 due to differences in their ages when compared to the subject. The Board also gives less weight to the board of review's comparable #4 which appears to be an outlier with its considerably higher improvement assessment in contrast to the other comparables in the record.

The Board finds the best evidence of assessment equity to be the parties' remaining comparables which are relatively similar to the subject in location, dwelling size, age, and some features. The best comparables have improvement assessments ranging from \$94,369 to \$140,195 or from \$20.91 to \$29.01 per square foot of living area. The subject's improvement assessment of \$131,299 or \$26.73 per square foot of living area falls within the range of the best comparables in the record. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
