

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Carlos Medina  
DOCKET NO.: 23-43552.001-R-1  
PARCEL NO.: 16-02-221-014-0000

The parties of record before the Property Tax Appeal Board are Carlos Medina, the appellant, by attorney Andrew S. Dziuk of Andrew Dziuk, Esq. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$5,714  
**IMPR.:** \$50,285  
**TOTAL:** \$55,999

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story multi-family building of masonry exterior construction with 5,382 square feet of gross building area. The building is approximately 108 years old. Features of the property include a full basement with finished area, five full bathrooms and a 2-car garage. The property has a site with 4,762 square feet of land area and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables that have the same assessment neighborhood code as the subject and are located from .62 to .98 of a mile from the subject property. The comparables are class 2-11 properties improved with multi-family buildings of masonry exterior construction ranging in size from

4,494 to 6,330 square feet of gross building area. The buildings are from 104 to 115 years old. Each comparable has a full basement and from three to six full bathrooms. Three comparables each have either a 1.5-car or a 3-car garage. The comparables have improvement assessments that range from \$36,446 to \$42,952 or from \$6.32 to \$8.76 per square foot of gross building area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$34,014 or \$6.32 per square foot of gross building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$55,999. The subject property has an improvement assessment of \$50,285 or \$9.34 per square foot of gross building area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code as the subject and are located approximately  $\frac{1}{4}$  of a mile from the subject property. The comparables are class 2-11 properties improved with two-story multi-family buildings of masonry exterior construction ranging in size from 4,470 to 4,848 square feet of gross building area. The buildings are from 94 to 108 years old. The comparables each have a full or partial basement and from three to six full bathrooms. Comparable #4 has a 2-car garage. The comparables have improvement assessments that range from \$45,460 to \$53,420 or from \$9.38 to \$11.95 per square foot of gross building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables, #1, #2, #4 and #5, as well as board of review comparables #1, #2 and #3 which differ from the subject in building size and/or they lack a garage, a feature of the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparable #3 and board of review comparable #4. The Board finds these two comparables are similar to the subject in location but each building is either 10% or 12% smaller than the subject and have varying degrees of similarity to the subject in age, bathroom count and garage capacity, suggesting adjustments for these differences would be required to make the comparables more equivalent to the subject. Nevertheless, these two comparables have improvement assessments of \$37,643 and \$45,460 or \$7.98 and \$9.38 per square foot of gross building area, respectively. The subject's improvement assessment of \$50,285 or \$9.34 per square foot of gross building area is bracketed by the two best comparables in the record on a per square foot of living area basis

but falls above the two best comparables in the record in terms of overall improvement assessment, which appears to be logical given the subject's larger building size and superior number of bathrooms. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
