

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Gil Garcia
DOCKET NO.: 23-43557.001-R-1
PARCEL NO.: 16-02-316-021-0000

The parties of record before the Property Tax Appeal Board are Gil Garcia, the appellant, by attorney Andrew S. Dziuk of Andrew Dziuk, Esq. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,687
IMPR.: \$11,312
TOTAL: \$15,999

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2023 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story dwelling of masonry exterior construction with 1,107 square feet of living area. The dwelling is approximately 133 years old. The property features a full basement and one bathroom. The property has a 3,125 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables that have the same assessment neighborhood code as the subject and are located from .15 to .36 of a mile from the subject property. The comparables are class 2-03 properties improved with dwellings of masonry exterior construction ranging in size from 1,065 to 1,318 square feet of living area. The dwellings range in age from 115 to 135 years old. One

comparable has a concrete slab foundation, two comparables each have a crawl space foundation and two comparables each have a full basement. Each comparable has one full bathroom, two comparables each have either one or two additional half bathrooms and three comparables each have a one-car to a two-car garage. The comparables have improvement assessments that range from \$8,313 to \$10,636 or from \$7.81 to \$9.02 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$8,645 or \$7.81 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$15,999. The subject property has an improvement assessment of \$11,312 or \$10.22 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code as the subject and are located within the same block and along the same street as the subject property or approximately ¼ of a mile from the subject. The comparables are class 2-03 properties improved with 1.5-story dwellings of masonry exterior construction ranging in size from 1,008 to 1,350 square feet of living area. The dwellings are from 123 to 139 years old. Two comparables each have a concrete slab foundation and two comparables each have a partial basement, one of which has finished area. Each comparable has one or one and one-half bathrooms. Comparable #1 has central air conditioning and comparable #3 has a one-car garage. The comparables have improvement assessments ranging from \$10,602 to \$14,312 or from \$10.22 to \$10.60 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables #2, #3 and #4, as well as board of review comparable #1 due to differences from the subject in dwelling size and/or age.

The Board finds the appellant's comparables #1 and #5, along with board of review comparables #2, #3 and #4 are overall more similar to the subject in location, dwelling size and age. However, the comparables have varying degrees of similarity when compared to the subject in foundation type and other features, suggesting adjustments would be required to make the comparables more equivalent to the subject. Nevertheless, the comparables have improvement assessments ranging from \$8,313 to \$12,345 or from \$7.81 to \$10.52 per square foot of living area. The subject's improvement assessment of \$11,312 or \$10.22 per square foot of living area

falls within the range established by the best comparables in the record. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence presented.

Based on this record, the Board finds a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
